The Symbol of Easter

Christians Wait To Share Great Triumph of The Lord

By GEORGE W. CORNELL
AP Religion Writer

Here and there and nearly everywhere today, there was a special mood.

It was in countless homes, where parents busily splashed eggs with garish colors, while the kids were out at play.

It was in the stores, where women young and old made last minute forays for new spring bonnets.

It was on the roads, in bus and train terminals and in the air, where travelers headed on holiday outings.

It was in the narrow streets of old Jerusalem, in the great plazas and basilicas of Rome, and at shrines and sacred sites in many lands, where pilgrims gathered.

It was at mountainside amphitheaters, in woods and parks and stadiums where huge celebrations were being readied.

It was in the music and colloquies of the airwaves.

It was in the green of the new grass of 1962, and in the fresh flowers.

And chiefly, it was in the many-

Easter Bonnet May Get a Little Soggy

By THE ASSOCIATED PRESS

Ohio's Easter Sunday may be a little hard on Easter bonnets. The weather forecast calls for scattered showers, accompanied by gusty winds and warmer temperatures.

The weekend promises to be unseasonably warm in the nation's midsection, where strong southerly winds Friday pushed readings into the 70s and 80s as far north as South Dakota. North Platte, Neb., reported 77 early today, one degree less than the 78 at El Paso, Tex., warmest of the 48 adjacent states.

To the west, it was much cooler with readings in the 40s reported from Atlanta north to Boston. The temperature dropped 40 degrees in 24 hours at Salt Lake City, which also measured a half inch of rain.

Light snow fell in northeastern Nevada, northern Utah and southern Idaho.

It also was cool in the East with readings in the 40s reported from Atlanta north to Boston. Freezing weather was limited to extreme northern lower Michigan and the northern Atlantic Coast states.

beating hearts, and in unnumbered places of worship around the earth, great and small, where Christians came together to wait and pray—and share the triumph of their Lord.

It was the eve of their great festival, of the assurance to them that real life and love has ultimate power over death and injustice, that God has extended hope and confidence outstripping any present trouble.

"In the world you shall have tribulation, but be of good cheer,

I have overcome the world."

It is the eve of the resurrection of Jesus, of Easter.

And its mingled bustle and bloom shed a special weekend luster in the affairs and cities of men.

Behind the Iron Curtain and outside it, in totalitarian lands and the free, the faithful prepared to mark an event that to them is the great beacon of human destiny.

There were difficulties and op-

Jerusalem's Church Bells Peel on Eve of Easter Rites

JERUSALEM (AP) — Church bells rang joyously over Jerusalem's walls today as the Holy City prepared to celebrate the Easter resurrection of Christ.

The great doors of the Church of the Holy Sepulchre creaked open at dawn for the day-long rites in its hallowed vaults—to most Christians the exact place of Christ's crucifixion, burial and resurrection.

In the same crumbling church, the pageantry of Good Friday came to a close Friday night.

Robed and bearded priests lifted an effigy of Christ's body from Calvary—now a richly ornamented chapel lit by candles and clusters of hanging lanterns like warm

golden icicles—and withdrew the nails from the cross.

The procession carried the body, wrapped in a sheet, down the winding stone staircase to the Stone of Unction, where beneath eight glowing lamps it was anointed and spiced.

A column of worshippers followed the body to its burial in the ornate marble tomb that still reveals some bare rock from Christ's original sepulchre. The services were intoned in seven languages.

Jerusalem is filled with more than 6,000 visitors from all corners of the globe. More pilgrims are entering with special permit through the no-man's land that splits Jerusalem between Israeli Jews and Jordanian Arabs. No Jews are allowed to cross the frontier, guarded by watchful troops on both sides.

Earlier Friday, hundreds of pilgrims retraced Christ's last footsteps from Pilate's court to Calvary. Bedouin tribesmen, half-veiled women and Moslems watched the Catholic procession respectfully, for Christ is revered by Moslems, as well as Christians.

Van Wert County Man Cleared in Wife's Death

LIMA, Ohio (AP)—A lie detector test has cleared Clarence Crider of Rt. 1, Venedocia, Van Wert County, of any involvement in the death of his wife, Rosalie.

Mrs. Crider, 46, died April 11 of gunshot wounds after being found on an Allen County road. Attempis by the sheriff's department to establish a motive have failed.

Sheriff Clay Cotterman said progress is being made in the case. "Slow but sure," he did not elaborate Friday.

American Aid To Viet Nam Begins To Show

U.S. Arms, Advice Pour into Fight Against Communists

SAIGON, South Viet Nam (AP) — For five months the United States has been beefing up South Viet Nam's military muscles. The results are beginning to show.

Since last December, when Washington decided to back the little republic to the hilt in its struggle against Communist guerrillas, U. S. arms, advice and support have reached nearly every level at which the fight is being waged.

U. S. naval advisors accompany the armed junks protecting Viet Nam's coast. U. S. Air Force pilots are in the cockpits of Vietnamese fighters.

U. S. Army advisors are in jungles, forests and marshes, working with Vietnamese commanders down to the company level.

More than 80 U. S. Army and Marine helicopters are carrying out almost daily troop-carrying missions, landing Vietnamese soldiers practically atop their targets.

Somewhere in the South China Sea, elements of the U. S. 7th Fleet are patrolling, ready to strike if outside Communist powers should ever decide on open intervention here.

About 6,000 Americans are believed to be in Viet Nam.

U. S. officials say this is not an American war but since December South Viet Nam has been able to seize the initiative largely because of American backing.

Though classified technically as military secret, certain general facts about disposition of the U. S. groups have been disclosed.

Army: U. S. Army personnel comprise the main group, probably numbering 3,000-4,000. More than half are stationed in Saigon, performing administrative and clerical duties acting as teachers and advisors, helping maintain and repair equipment, manning radio networks and flying and servicing one company of troop-carrying helicopters.

There are about 20 H21 helicopters and 200 men in each of the Army's three helicopter companies. The U. S. Army also flies and maintains two companies—21 planes and 300 men — of light, troop-carrying planes at the coastal town of Nha Trang.

Several hundred U. S. Army "special forces" troops are scattered over the countryside teaching Vietnamese soldiers, rangers and civic action cadres the subtle arts of guerrilla warfare.

Air Force: South Viet Nam has no jet aircraft and no bombers heavier than the World War II vintage, two-engine B26s. Its fleet of about 80 T28 fighter trainers carry the brunt of the air war against the Viet Cong, along with a number of A1E fighter bombers. About 500 U. S. Air Force personnel are believed to be in Viet Nam.

Solons Leave Roberts Case Up to Army

WASHINGTON (AP) — Sen. John Stennis, D-Miss., says it's up to the Army—not the Senate—to decide the cause of Maj. Arch E. Roberts.

Stennis, who is chairman of the subcommittee investigating charges that military officers' anti-Communist speeches have been muzzled, said Friday his committee would take no action until the Army completed its inquiry.

"The basic question involved is whether Maj. Roberts violated military regulations by delivering his address without prior policy clearance as required by established procedures," said Stennis in a statement.

Roberts, who served under former Maj. Gen. Edwin A. Walker and says he drafted Walker's controversial pro-blue troop indoctrination program, was suspended by the Army Thursday night shortly after he gave a speech without Pentagon clearance to the Daughters of the American Revolution.

Argentine Chiefs Seek Nonshooting Showdown

Daytonian Eager For Moon Trip

Wright Field Flier Tapped as Astronaut

DAYTON, Ohio (AP) — Maj. Donald M. Sorlie has his stand ard test flight gear ready, an overnight kit with his toothpaste and toothbrush, for his newest project—a trip to the moon.

Sorlie, a veteran of 17 years' military service, was one of seven Air Force officers selected Friday with one from the Navy for a moon-shot program.

The major, 39, is presently inceptor project officer in the Aeronautical Systems Division at nearby Wright - Patterson Air Force Base.

Born in Omaha, he grew up in Fargo, N. D.

"We chased the cows out of the pasture at the Ong Airport in Kansas City to make way for my first trial in a Piper J3 in 1945," Sorlie recalled. Since then he has mastered more than 30 military aircraft.

During the Korean Conflict Sorlie won the Distinguished Flying Cross. The Air Force said Sorlie instructed other pilots to stay above a storm met near a target area while he flew into the bad weather and accomplished the mission.

What does he think about his newest project?

"The big thing today is the man in space. That's where we have a future and that's why I applied for the program. . . . The logical sequence is higher and faster. . . . I just hope I can cut the mustard."

Sorlie is married and the father of five children ranging in age from 2 to 12. He has been at Wright - Patterson for about 15 months.

Greece Reels Under Rioting; 80 Injured

ATHENS, Greece (AP) — The government clamped strict security measures on Athens today after riot police used armored vehicles and tear gas to break up antigovernment riots that injured 80 persons.

Police, backed by an estimated 7,000 army reinforcements, battled thousands of demonstrators from sunset to midnight as street fighting swept across the city.

Premier Constantine Caramanlis' pro - Western government blamed the violence on leftist extremists and ordered army troops and riot police to patrol Athens streets. Nearby military units were put on alert.

The rioting erupted when police tried to prevent an overflow crowd from attending a protest rally called by Center Union leader George Papandreu in defiance of a government ban on mass gatherings.

Papandreu, whose antigovernment campaign has support from the left, called the rally to denounce results of last October's national election in which Caramanlis chalked up a landslide.

Pair, Wed 52 Years, Dies within Minutes

TAMPA, Fla. (AP)—An elderly couple, married for 52 years, died within minutes of each other.

Doctors said both died of natural causes. The man, Jacob Lott Lightsey, 71, discovered the death a short time later and telephoned relatives and the family physician.

At 2:15 a.m., less than 15 minutes after the doctor arrived, Mrs. Lightsey died.

Burglars Strike At 4 City Firms

The southend of Circleville was struck by a series of burglaries last night.

Circleville Police, continuing their investigation today, said four firms were entered. Unsuccessful attempts to open safes were made at two locations.

Hit by the burglars were the Certified Service Station at Court and Logan Sts., Jack Heeter's Tavern on Walnut St., the Circleville Lumber Co. and Dean's Potato Chip plant on S. Pickaway St.

Police said the hardest hit appeared to be Heeter's Tavern where an undetermined amount of cash and checks was taken. Combinations were forced from safes at the lumber firm and potato chip plant, but the vaults were not opened.

THE STATION entry was discovered at 2:53 a. m. today by Sgt.

Roderick List and his patrolmen. Reports of the other burglaries filtered into police headquarters later in the morning.

Sgt. List said an undetermined amount of money was taken from a soft drink machine at Dean's. With the exception of the tavern, loot appeared to be light at the other firms.

Investigation was continued today under the supervision of Sgt. List, Sgt. Turney Ross and Patrolman William Brungs and William Goff.

Officers said the burglaries probably were pulled by the same gang. Entry was made through a window at the tavern. Doors were forced at the other locations.

Jack Heeter, owner of the tavern, today requested persons who cashed checks Friday at his establishment to get in contact with him as soon as possible.

Schedule Is Announced Here For Further Street Cleaning

An extensive program for the quick cleanup of streets in Circleville, sanctioned by City Council, has prompted the Service Department to prepare a tentative schedule of work to be completed.

The cleanup program has been under way here several days, with main emphasis placed on the downtown district. A concentrated effort will now be focused on residential areas, according to Service Director Ronald Sharrett.

In order to accomplish sweeping of all sand and dirt accumulated during the winter, Sharrett requested no parking on specific streets at given dates until after the sweeping machine has completed its rounds. Here is the cleaning schedule:

Monday, April 23 — Court St. north of High St. and Court St. south of Mound St.

Tuesday, April 24 — Pickaway St.

Wednesday, April 24 — Washington St.

U.S. Proposes 13 Nations Control Berlin

WASHINGTON (AP) — The United States has proposed that an international authority of five Western, five Communist and three neutral nations be put in charge of access routes to Berlin.

Under the tentative U. S. plan for settlement of the dispute over the divided city, East Berlin and East Germany would have representatives on the authority.

The 13-nation control plan has been suggested to the Soviet Union and the Western Allies, but informants said Friday night the Russians have shown no interest in the proposal.

The matter is still being debated among the Allies.

The Russians still insist on a Berlin settlement requiring withdrawal of Western troops from West Berlin and giving control of supply lines through 110 miles of East German territory to the East German Communist regime.

Communist representatives on the international authority, under the U. S. plan, would be the Soviet Union, Czechoslovakia, Poland, East Berlin and East Germany.

The West would be represented by the United States, Britain, France, West Berlin and West Germany.

Thursday, April 26 — Pinckney and Watt Sts.

Friday, April 27 — Mound St.

SHARRETT reminded that the listed schedule is tentative and will be followed as worker and equipment resources permit.

He said changes or delays that may develop will be announced promptly in order to minimize inconvenience.

Death Penalty Seen for Salan

Algerian Rebels Vow To Continue Fight

PARIS (AP) — Ex-Gen. Raoul Salan, captured chief of the European Secret Army Organization, today faced a military trial and probable death sentence. His supporters in the Algerian terrorist campaign reeled under the impact of his arrest.

The secret army vowed to continue its desperate battle against Algerian independence, but many observers felt Salan's capture represented a crippling and possible death blow to the underground organization.

Salan, one of France's most decorated soldiers, was the great rallying symbol to several thousand European right-wingers and French army deserters. The extremists have been terrorizing Algerian Moslems in hopes of forcing Moslem retaliation that would prompt the government to call off plans for self-determination in Algeria.

Word of Salan's capture in the heart of Algiers Friday plunged Algeria's European population into gloom. "We are lost," said a European resident of Algiers.

Salan was flown to Paris handcuffed and rushed to Sante Prison. Some 300 of his followers demonstrated outside the prison, and imprisoned sympathizers rioted and set fire to a wooden partition inside.

Salan, 63, a former five-star general, had been on the fugitive list for a year. His arrest removed from circulation the last of four major figures in the abortive general's revolt against De Gaulle in April 1961.

Salan already had been sentenced to death in absentia. But under French law, the sentence will be set aside and he will be tried in person, probably within a few weeks. The charges will stem from the revolt and his secret army leadership.

Rivals Confer With President

Opposing Army Blocs Wheel Out Artillery

BUENOS AIRES, Argentina (AP)—Rival generals put Argentina on a war footing today, then suddenly rushed to a conference with President Jose Maria Guido, apparently to seek a nonshooting showdown.

Earlier today, opposing army factions had wheeled out artillery and tanks and dug trenches on the outskirts of Buenos Aires as the government crisis deepened.

Gen. Enrique Rauch, leader of a lightning rebellion against army leadership, ordered his tanks and troops to march on Buenos Aires to back with armed might the nation's embattled president, Jose Maria Guido. Guido was installed in office only recently after the armed forces ousted President Arturo Frondizi.

Gen. Raul Poggi, the army commander, ordered troops loyal to his command into battle positions to resist Rauch's advance. Poggi's men in battle dress wheeled out artillery and dug trenches.

Poggi is the leader of the military faction that has been demanding that President Guido, by executive decree, assume virtually dictatorial powers in suppressing Peronists.

Gen. Rauch, a cavalry leader, apparently had in hand more than 12,000 troops and 150 Sherman tanks from an armored regiment at Campo de Mayo, Argentina's biggest military establishment.

Poggi's forces included the 1st and 2nd infantry divisions in Palermo suburb—directly across the path of Rauch's armored column.

Both sides claimed the support of an overwhelming share of the armed forces, but it was not known exactly how the armed services throughout the country were reacting.

Gen. Rauch's faction was in control of most of Buenos Aires.

It was assumed that Gen. Rauch would seek to occupy such major positions as the telephone exchange and radio stations, and the Plaza de Mayo, where Government House is located.

The war ministry, the key to power in Argentina, is just across the avenue from government House.

The dissident army faction also opposed letting Peronists take the offices they won in elections last month, but supported Guido in seeking a constitutional solution to the problem.

In confusing sequence, Guido accepted the resignation of Army Secretary Gen. Marino Bartolome Carrera and appointed Gen. Rauch to be Carrera's successor and also acting commander-in-chief.

Poggi proclaimed himself still the commander and declared Rauch in rebellion.

Famous Parade Master Is Dead

NEW YORK (AP)—Grover A. Whalen, who loved a parade and as official greeter during the 20s did as much as any man to warm the granite canyons of New York, is dead at 75.

Whalen succumbed to a heart attack Friday in his fashionable upper East Side apartment with his wife of 40 years by his side.

It was from the terrace of the apartment less than two months ago that the ailing Whalen sat in a wheelchair and watched the motorcade which was carrying astronaut John H. Glenn Jr. speed past on the East River Drive below.

Glenn was en route to a ticker tape parade up Broadway—a Whalen innovation of almost four decades ago that has become a symbol of American recognition of heroism.

Jerusalem's Church Bells Peal on Eve of Easter Rites

JERUSALEM (AP)—Church bells rang joyously over Jerusalem's walls today as the Holy City prepared to celebrate the Easter resurrection of Christ.

The great doors of the Church of the Holy Sepulchre creaked open at dawn for the day-long rites in its hallowed vaults—to most Christians the exact place of Christ's crucifixion, burial and resurrection.

In the same crumbling church, the pageantry of Good Friday came to a close Friday night.

Robed and bearded priests lifted an effigy of Christ's body from Calvary—now a richly ornamented chapel lit by candles and clusters of hanging lanterns like warm

golden icicles—and withdrew the nails from the cross.

The procession carried the body, wrapped in a sheet, down the winding stone staircase to the Stone of Unction, where beneath eight glowing lamps it was anointed and spiced.

A column of worshippers followed the body to its burial in the ornate marble tomb that still reveals some bare rock from Christ's original sepulchre. The services were intoned in seven languages.

Jerusalem is filled with more than 6,000 visitors from all corners of the globe. More pilgrims are entering with special permit through the no-man's land that splits Jerusalem between Israeli Jews and Jordanian Arabs. No Jews are allowed to cross the frontier, guarded by watchful troops on both sides.

Earlier Friday, hundreds of pilgrims retraced Christ's last footsteps from Pilate's court to Calvary. Bedouin tribesmen, half-veiled women and Moslems watched the Catholic procession respectfully, for Christ is revered by Moslems, as well as Christians.

Ohio, German Gls To Swap Positions

ETAIN AIR BASE, France (AP)—The former Ohio Air National Guardsmen on active duty here will be sharing this air base with four German crews for 10 days starting April 28.

While the four German planes, F84Fs, with their pilots and ground crews are here, planes, pilots and ground crews from Etain will spend about 10 days at Hops-ten Air Base in Germany with a German air force unit.

Hops-ten is in northern West Germany, about 20 miles east of the Netherlands. Among the Yanks going there are maintenance men M. Sgt. Reaford L. Shadoan of Lithopolis; T. Sgt. Robert E. Backman of Newark; Airman 2C William C. Fairchild of Lancaster; Airman 2C William D. Lott of Junction City; Airman 3C Lester H. Denton of London and Airman 3C Robert L. Herron of Kingston.

American Aid To Viet Nam Begins To Show

U.S. Arms, Advice Pour into Fight Against Communists

SAIGON, South Viet Nam (AP)—For five months the United States has been beefing up South Viet Nam's military muscles. The results are beginning to show.

Since last December, when Washington decided to back the little republic to the hilt in its struggle against Communist guerrillas, U. S. arms, advice and support have reached nearly every level at which the fight is being waged.

U. S. naval advisors accompany the armed junks protecting Viet Nam's coast. U. S. Air Force pilots are in the cockpits of Vietnamese fighters.

U. S. Army advisors are in jungles, forests and marshes, working with Vietnamese commanders down to the company level.

More than 80 U. S. Army and Marine helicopters are carrying out almost daily troop-carrying missions, landing Vietnamese soldiers practically atop their targets.

Somewhere in the South China Sea, elements of the U. S. 7th Fleet are patrolling, ready to strike if outside Communist powers should ever decide on open intervention here.

About 6,000 Americans are believed to be in Viet Nam.

U. S. officials say this is not an American war but since December South Viet Nam has been able to seize the initiative largely because of American backing.

Though classified technically as military secret, certain general facts about disposition of the U. S. groups have been disclosed.

Army: U. S. Army personnel comprise the main group, probably numbering 3,000-4,000. More than half are stationed in Saigon, performing administrative and clerical duties acting as teachers and advisors, helping maintain and repair equipment, manning radio networks and flying and servicing one company of troop-carrying helicopters.

There are about 20 H21 helicopters and 200 men in each of the Army's three helicopter companies. The U. S. Army also flies and maintains two companies—21 planes and 300 men—of light, troop-carrying planes at the coastal town of Nha Trang.

Solons Leave Roberts Case Up to Army

WASHINGTON (AP)—Sen. John Stennis, D-Miss., says it's up to the Army—not the Senate—to decide the cause of Maj. Arch E. Roberts.

Stennis, who is chairman of the subcommittee investigating charges that military officers' anti-Communist speeches have been muzzled, said Friday his committee would take no action until the Army completed its inquiry.

"The basic question involved is whether Maj. Roberts violated military regulations by delivering his address without prior policy clearance as required by established procedures," said Stennis in a statement.

Roberts, who served under former Maj. Gen. Edwin A. Walker and says he drafted Walker's controversial pro-blue troop indoctrination program, was suspended by the Army Thursday night shortly after he gave a speech without Pentagon clearance to the Daughters of the American Revolution.

Argentine Chiefs Seek Nonshooting Showdown

Daytonian Eager For Moon Trip

Wright Field Flier Tapped as Astronaut

DAYTON, Ohio (AP)—Maj. Donald M. Sorlie has his stand ard test flight gear ready, an overnight kit with his toothpaste and toothbrush, for his newest project—a trip to the moon.

Sorlie, a veteran of 17 years' military service, was one of seven Air Force officers selected Friday with one from the Navy for a moon-shot program.

The major, 39, is presently inceptor project officer in the Aeronautical Systems Division at nearby Wright - Patterson Air Force Base.

Born in Omaha, he grew up in Fargo, N. D.

"We chased the cows out of the pasture at the Ong Airport in Kansas City to make way for my first trial in a Piper J3 in 1945," Sorlie recalled. Since then he has mastered more than 30 military aircraft.

During the Korean Conflict Sorlie won the Distinguished Flying Cross. The Air Force said Sorlie instructed other pilots to stay above a storm met near a target area while he flew into the bad weather and accomplished the mission.

What does he think about his newest project?

"The big thing today is the man in space. That's where we have a future and that's why I applied for the program. . . . The logical sequence is higher and faster. . . . I just hope I can cut the mustard."

Sorlie is married and the father of five children ranging in age from 2 to 12. He has been at Wright - Patterson for about 15 months.

Greece Reels Under Rioting; 80 Injured

ATHENS, Greece (AP)—The government clamped strict security measures on Athens today after riot police used armored vehicles and tear gas to break up antigovernment riots that injured 80 persons.

Police, backed by an estimated 7,000 army reinforcements, battled thousands of demonstrators from sunset to midnight as street fighting swept across the city. Premier Constantine Caramanlis' pro-Western government blamed the violence on leftist extremists and ordered army troops and riot police to patrol Athens streets. Nearby military units were put on alert.

The rioting erupted when police tried to prevent an overflow crowd from attending a protest rally called by Center Union leader George Papandreu in defiance of a government ban on mass gatherings.

Papandreu, whose antigovernment campaign has support from the left, called the rally to denounce results of last October's national election in which Caramanlis chalked up a landslide.

Pair, Wed 52 Years, Dies within Minutes

TAMPA, Fla. (AP)—An elderly Tampa couple, married for 52 years, died within minutes of each other.

Doctors said both died of natural causes. The man, Jacob Lott Lightsey, 82, had been ill for three weeks, doctors said. He died early Friday.

His wife, Bessye Anderson Lightsey, 71, discovered the death a short time later and telephoned relatives and the family physician.

At 2:15 a. m., less than 15 minutes after the doctor arrived, Mrs. Lightsey died.

Burglars Strike At 4 City Firms

The southend of Circleville was struck by a series of burglaries last night.

Circleville Police, continuing their investigation today, said four firms were entered. Unsuccessful attempts to open safes were made at two locations.

Hit by the burglars were the Certified Service Station at Court and Logan Sts., Jack Heeter's Tavern on Walnut St., the Circleville Lumber Co. and Dean's Potato Chip plant on S. Pickaway St.

Police said the hardest hit appeared to be Heeter's Tavern where an undetermined amount of cash and checks was taken. Combinations were forced from safes at the lumber firm and potato chip plant, but the vaults were not opened.

THE STATION entry was discovered at 2:53 a. m. today by Sgt.

Roderick List and his patrolmen. Reports of the other burglaries filtered into police headquarters later in the morning.

Sgt. List said an undetermined amount of money was taken from a soft drink machine at Dean's. With the exception of the tavern, loot appeared to be light at the other firms.

Investigation was continued today under the supervision of Sgt. List, Sgt. Turney Ross and Patrolman William Brungs and William Goff.

Officers said the burglaries probably were pulled by the same gang. Entry was made through a window at the tavern. Doors were forced at the other locations.

Jack Heeter, owner of the tavern, today requested persons who cashed checks Friday at his establishment to get in contact with him as soon as possible.

Rivals Confer With President

Opposing Army Blocs Wheel Out Artillery

BUENOS AIRES, Argentina (AP)—Rival generals put Argentina on a war footing today, then suddenly rushed to a conference with President Jose Maria Guido, apparently to seek a nonshooting showdown.

Earlier today, opposing army factions had wheeled out artillery and tanks and dug trenches on the outskirts of Buenos Aires as the government crisis deepened.

It was assumed that Gen. Rauch would seek to occupy such major positions as the telephone exchange and radio stations, and the Plaza de Mayo, where Government House is located.

The war ministry, the key to power in Argentina, is just across the avenue from government House.

The dissident army faction also opposed letting Peronists take the offices they won in elections last month, but supported Guido in seeking a constitutional solution to the problem.

In confusing sequence, Guido accepted the resignation of Army Secretary Gen. Marino Bartolome Carrera and appointed Gen. Rauch to be Carrera's successor and also acting commander-in-chief.

Poggi proclaimed himself still the commander and declared Rauch in rebellion.

Famous Parade Master Is Dead

NEW YORK (AP)—Grover A. Whalen, who loved a parade and as official greeter during the 20s did as much as any man to warm the granite canyons of New York, is dead at 75.

Whalen succumbed to a heart attack Friday in his fashionable upper East Side apartment with his wife of 40 years by his side.

It was from the terrace of the apartment less than two months ago that the ailing Whalen sat in a wheelchair and watched the motorcade which was carrying astronaut John H. Glenn Jr. speed past on the East River Drive below.

Glenn was en route to a ticker tape parade up Broadway—a Whalen innovation of almost four decades ago that has become a symbol of American recognition of heroism.

Schedule Is Announced Here For Further Street Cleaning

An extensive program for the quick cleanup of streets in Circleville, sanctioned by City Council, has prompted the Service Department to prepare a tentative schedule of work to be completed.

The cleanup program has been under way here several days, with main emphasis placed on the downtown district. A concentrated effort will now be focused on residential areas, according to Service Director Ronald Sharrett.

In order to accomplish sweeping of all sand and dirt accumulated during the winter, Sharrett requested no parking on specific streets at given dates until after the sweeping machine has completed its rounds. Here is the cleaning schedule:

Monday, April 23 — Court St. north of High St. and Court St. south of Mound St.

Tuesday, April 24 — Pickaway St.

Wednesday, April 24 — Washington St.

U.S. Proposes 13 Nations Control Berlin

WASHINGTON (AP)—The United States has proposed that an international authority of five Western, five Communist and three neutral nations be put in charge of access routes to Berlin.

Under the tentative U. S. plan for settlement of the dispute over the divided city, East Berlin and East Germany would have representatives on the authority.

The 13-nation control plan has been suggested to the Soviet Union and the Western Allies, but informants said Friday night the Russians have shown no interest in the proposal.

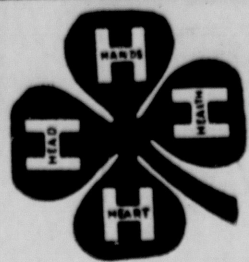

The matter is still being debated among the Allies.

The Russians still insist on a Berlin settlement requiring withdrawal of Western troops from West Berlin and giving control of supply lines through 110 miles of East German territory to the East German Communist regime.

Communist representatives on the international authority, under the U. S. plan, would be the Soviet Union, Czechoslovakia, Poland, East Berlin and East Germany.

The West would be represented by the United States, Britain, France, West Berlin and West Germany.

Switzerland, Sweden and Austria would be the neutrals.

4-H Club News

By EDWIN D. TAYLOR
County Extension Agent, 4-H

Ohio delegates to the National 4-H Club Conference will spend a busy week in Washington, D. C. April 21-27.

In addition to taking part in conference tours, discussions, and other activities, each of the four delegates will serve on a special committee. The delegates and their committee assignments are: Anita Gross, Sugar-creek, music; Joyce Fox, Ash-land, recreation; Donald McNe-mar, Xenia, delegates' banquet; and William Mitchell, Plain City, meal service.

Albert F. Gehres, acting state 4-H club leader, and Miss Beatrice Cleveland, associate club leader, also have conference assignments. Gehres will serve on a committee arranging a 4-H Founda-tion breakfast April 27 in the Sheraton Park Hotel.

Guests will include delegates, leaders, and friends of 4-H club work. Miss Cleveland is a mem-ber of the Leaders' Advisory Com-mittee, which will review the lead-ers' section of the conference and make recommendations for next year's program.

THIS YEAR'S conference, centered around the overall theme, "Build on Our American Heri-tage", will feature daily themes on specific heritages — spiritual, his-torical, cultural, political, econo-mic, and educational. There will be tours to points of interest in Washington, visits with Congress-men and talks by some of the na-tion's outstanding leaders in gov-ernment, business, and agricul-ture.

Most of the sessions will be in the National 4-H Center, although the general assembly on the final day will be in the Departmental Auditorium of the U. S. Depart-ment of Agriculture. Secretary of Agriculture Orville Freeman will speak.

The trip to the nation's capital is considered the highest award an Ohio 4-H club member can achieve. Delegates are chosen on the basis of their overall records in 4-H club work.

Town and Country Stitches

By Jessica Peart

The third meeting of the Town and Country Stitches was held at the home of Shelia Lintner on April 10. The meeting was called to order by the president who led the club in the 4-H pledge and pledge to the flag. The roll was called with all members present.

The club tour will be June 18 to the Columbus State Capitol. We decided to collect bottle caps as a fund project.

Refreshments were served by Shelia Lintner and Betty Fullen. The next meeting will be in the home of Vivian Lanman on April 24.

Deercreek Livestock

By Janie Clark

The Deercreek Livestock 4-H club met at Williamsport School. Members received papers for reg-istering projects this year. The next meeting will be at 8 p. m. April 23, at the Williamsport School.

Deercreek Busy Bees

By Janie Clark

The Deercreek Busy Bees 4-H club met at Williamsport School. We discussed two tours this year. The next meeting will be April 24, at Williamsport School.

Madison Livewires

By Jerry Stebelton

The Madison Livewires brought their third 4-H meeting to order on April 10. For a money-making project we decided to sell candy and potato chips. The sale will start April 14.

Refreshments were served by Julie, Becky and Butch Kinsell. The next meeting will be April 24.

Westfall Livestock

By Lowell Williams

The fifth meeting of the West-fall Livestock Club was called to order by president Tom Tootle. Douglas Roth, chairman of the dairy meeting showed a film on cattle lice.

The next meeting will be held at 3:30 p. m. April 24 at the school.

Future Farmers of Monroe

By Joyce Long

The fourth meeting of the Fut-ure Farmers of Monroe was held April 12, at Monroe School.

The meeting was called to order by acting president Ernie Lind-sey. The 4-H pledge was led by Gary Upperman. Roll call was answered by naming health slogans.

Community projects were dis-cussed, but tabled until the next meeting. We named three repre-sentatives to the judging contest scheduled at Wilmington College on April 14. They are Timmy Hamilton, Jim Shell, and Ernie Lindsey.

Health posters were displayed and explained by the members. Following the meeting refresh-ments were served by Jo Ann Sei-bel, Patty Bailey and committee. The next meeting will be our safety meeting on April 25.

Pickaway Beef and Sheep

By Scott Wilson

The second meeting of the Pick-away Beef and Sheep club was called to order by president, Robert Bower at 7:30 p. m. April 9, in Pickaway Twp. School auditorium. The pledge to the flag was led by Ed Kreisel, and the 4-H pledge was led by Jim Evans.

The constitution and by-laws of our club for this year were read by secretary Tom Smith. They were voted on and approved. Re-ports were then given on the pro-ject selection of club animals. Joan Enoch reported on selecting sheep, and Tom Smith reported on selecting beef animals.

Our next meeting will be held April 30 in the Pickaway Town-ship School.

Logan Elm Sunny Sewers

By Brenda Mills

The third meeting of the Logan Elm Sunny Sewers was held April 11, at Pickaway Twp. School. Sally Webb led the pledge to the flag and Patty Pontius led the 4-H pledge. Members answered roll call by naming their project and favorite color.

Page Miller read the club con-stitution. Jr. Leader books were handed out.

Cindy Valentine presented a de-monstration on how to pin a tea towel. Leola Harmon gave a de-monstration on parliamentary pro-cedure.

The next meeting will be 3:45 to 5 p. m. April 25, at Logan Elm High School.

Perry Twp. Farmers of Tomorrow

By Donna Kempton

The second meeting of the Perry Farmers of Tomorrow was held April 2 at Atlanta School. The meeting was brought to order by the president, Frank Keller led in the 4-H Pledge.

We re-elected our health and safety leaders. Jeri Skinner was elected health leader and Ralph Keaton safety leader. We discus-sed several projects to be consid-ered for our community project.

Gary and Linda Wiscup, Brooks McCoy, Patty and Donna Kempton were to go to Wilming-ton on April 14 for dairy and gen-eral livestock judging.

The next meeting was scheduled at Atlanta School.

Saltcreek Livestock

By Bobby Collins

The Saltcreek Livestock 4-H club met in Saltcreek School cafe-teria for its regular meeting. The group prayed the Lord's Prayer and recited the 4-H Pledge. Mem-bers answered roll call by nam-

Circleville, Ohio

Rootworm Damage Now on Increase

By GEORGE HAMRICK
County Extension Agent,
Agriculture

Ohio infestation records indicate that in the past rootworms have been a pest only in scattered corn fields. In recent years the inci-dents of damage by these insects have become more numerous.

Much of the increase in infestation is believed due to an in-creasing number of acres in con-tinuous corn. If this practice of consecutive, or continuous, corn growing should be increased, rootworms could easily become the No. 1 insect pest of corn in the state.

Both the northern and southern species are present throughout most of the state. Economic damage by the southern species has been low. The northern species is predominant in most of the state and has been responsible for most of the economic damage in recent years.

The southern corn rootworm adult is commonly known as "the 12-spotted cucumber beetle." It passes the winter in the form of a yellowish or yellowish-green beetle about one-fourth inch long with 12 black spots on its wing covers.

THE FEMALES become active in the spring deposit eggs in the ground around the bases of plants. The number of generations in Ohio is not known, but there may be more than one.

The southern corn rootworm feeds on a large number of plants. Therefore, rotation of crops will not control it.

The northern corn rootworm

ing sports.

Final plans were made for a sausage and pancake supper to be held in the cafeteria from 5:30 to 8 p. m. April 28. Members are selling tickets.

The next meeting will be April 21.

Perry Township Jr. Livestock

By Charles Long

The third meeting of the Perry Twp. Jr. Livestock club was held April 10 in the school. The meet-ing was called to order by Presi-dent Terry Morris. Johnny New-ton led the 4-H Pledge.

Steer reports were given by Jackie Roberts, Johnny Newton and Cheryl Martin.

Recreation was held in the gym. The next meeting will be held April 24 in the school building.

Pickaway County Tractor Club

By Earl Grady

The fourth meeting of the Pick-away County 4-H Tractor Club was held at the Land's Marathon Sta-tion in Stoutsville.

Members participated in a class on what makes an engine run. There were 13 members present.

Darby Flying Needles

The last Darby Flying Needle Club was April 10.

The meeting was called to order by President Barbara Vance. We repeated the 4-H pledge.

Barbara Vance gave a demon-stration on how to cut out a pat-tern.

The meeting was adjourned by Linda Writsel.

The next meeting is May 1.

Here's a high production "Booster Feed" that will increase production levels of dairy and beef cattle!

Red Rose RUMENATOR

This ration is an excellent booster feed or appetizer for dairy and beef animals of all ages. Fortified with vitamins A, D3, and E, animal fat and minerals, Red Rose Rumenator supplies high levels of available energy to keep herds in top condition, maintain a natural vigor, and increase milk production. It's a "nutrition-automated" complete dairy feed that gives an "energy and vitamin lift" to any dairy or beef feeding program. Try it, and you will agree with other dairy-men that Red Rose Rumenator is "just the dairy feed you have been looking for."

- Improves appetites
- Improves milk produc-tion
- Dairy cows stay at peak production longer
- Glossier haircoats, thin-ner skin
- Gets cows in better con-dition for calving
- Young stock grow fast-er — are more vigorous

RED ROSE FARM SERVICE

\$5½ Million Insurance Paid to Ohio Farmers Since 1939

Policyholders in Ohio have re-ceived more than 5½ million dol-lars in claims since crop insurance was first offered in 1939, it was an-nounced today by the Federal Crop Insurance Corporation of the U. S. Department of Agriculture.

The all-risk insurance, sold through the Federal Crop Insur-ance Corporation, is designed to protect producers of the principal cash crops against the loss of farm operating capital from causes over which they have no con-trol.

In Ohio, one to three of the ma-jor crops are insurable in 36 coun-ties. Thirty of these counties have wheat, corn and soybean in-surance, three have wheat and corn; two tobacco and one toba-co and wheat. More counties will be added, and coverage on at least one other crop is predicted in 1963.

Specific causes of loss named in the policy are drought, flood, freeze, frost, snow, hail, wind, ex-cessive rain, plant disease, insect infestation, tornado, hurricane, fire, wildlife, earthquake, lightning and any other unavoidable causes

Farm Facts . . .

By GEORGE HAMRICK
County Extension Agent,
Agriculture

FARM POPULATION estimates in the U. S. as of April, 1961, showed 8.1 per cent of the total population, or about one person in 12 living on a farm, according to Ohio State University Extension economists.

FARM-CITY WEEK this year will be observed nationally, and in Ohio, November 16-22. In addition, Ohio efforts to promote im-proved rural-urban relationships will be conducted at various times throughout the year.

MORE
EFFICIENCY
FROM
YOUR GRAIN

How many of you hog farmers ask yourself: "How can I cut my cost of turning grain into pork?" There might be many different ways to answer this problem. We feel the best answer is to custom mix it with a Purina Hog Chow Concentrate. You just bring your grain to our Check-R-Mix mill. In only mew minutes' time we will grind and mix your grain — and turn it into a

high-efficiency Purina Hog Chow ration. You get more in return from your grain, because your hogs put on more meat from less feed.

So to put low-cost gains on your hogs, bring your grain to our Check-R-Mix mill today. Start feeding the Purina way and prove to yourself; it costs you less.

DO YOU KNOW the Extent of Purina Research?

Purina long has done basic research work at its 778-acre farm, Gray Summit, Mo.; and at other farms in Nashua, N. H., and Graceville, Fla. Playing an equally important role are the continually expanding laboratory facilities in St. Louis.

But these research farms and laboratories are only the first step in bringing feeders new and improved products. After leaving the research farm proving grounds, products are field-tested and demonstrated under actual farm conditions before being released.

New and improved products are another reason why more people feed Purina than any other brand.

GIVE YOUR PIGS A BOOST! add Purina Pig-Plus to their ration

You can bring up poor-doers and get suckled-down sows back in condition with Purina Pig-Plus in their feed. Pig-Plus is a vitamin-

mineral-antibiotic supplement that adds ex-tra nutrients to hog rations, especially dur-ing stress periods.

- Pig-Plus can get pigs off to a fast start.
- It helps keep hard-working boars in condition.
- It gives a lift to hogs following disease.
- Pig-Plus conditions pigs for shows and sales.

There's a place for Purina Pig-Plus on every hog farm in America. Ask us to fortify your hog ra-tions with Pig-Plus next time you order Chows.

YOUR GRAIN**

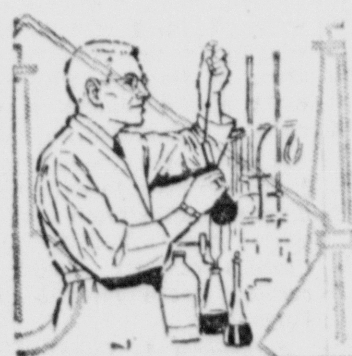

How many of you hog farmers ask yourself: "How can I cut my cost of turning grain into pork?" There might be many different ways to answer this problem. We feel the best answer is to custom mix it with a Purina Hog Chow Concentrate. You just bring your grain to our Check-R-Mix mill. In only a few minutes' time we will grind and mix your grain — and turn it into a

high-efficiency Purina Hog Chow ra-tion. You get more in return from your grain, because your hogs put on more meat from less feed.

So to put low-cost gains on your hogs, bring your grain to our Check-R-Mix mill today. Start feeding the Purina way and prove to yourself; it costs you less.

DO YOU KNOW the Extent of Purina Research?

Purina long has done basic research work at its 778-acre farm, Gray Summit, Mo.; and at other farms in Nashua, N. H., and Graceville, Fla. Playing an equally important role are the continually expanding laboratory facilities in St. Louis.

But these research farms and laboratories are only the first step in bringing feeders new and improved products. After leaving the research farm proving grounds, products are field-tested and demonstrated under actual farm conditions before being released.

New and improved products are another reason why more people feed Purina than any other brand.

GIVE YOUR PIGS A BOOST!

add Purina Pig-Plus to their ration

You can bring up poor-doers and get suckled-down sows back in condition with Purina Pig-Plus in their feed. Pig-Plus is a vitamin-

mineral-antibiotic supplement that adds extra nutrients to hog rations, especially during stress periods.

- Pig-Plus can get pigs off to a fast start.
- It helps keep hard-working hogs in condition.
- It gives a lift to hogs following disease.
- Pig-Plus conditions pigs for shows and sales.

There's a place for Purina Pig-Plus on every hog farm in America. Ask us to fortify your hog ra-tions with Pig-Plus next time you order Chows.

Many Facts and Fallacies Crop Up Regarding Best Possible Lawn Care

By GEORGE HAMRICK
County Extension Agent,
Agriculture

There's no doubt about it: green is the color of spring. Look at your lawn. It is as green as it should be?

While you're thinking of lawns, you may be interested in some observations on "Facts and Fallacies of Lawn Maintenance" presented by Dr. R. R. Davis of the Ohio Agricultural Experiment Station's agronomy department at the 33rd annual Ohio short course for agronomists, landscape contractors, garden center operators, and nurserymen. Here's what Dr. Davis said:

Practically every adult in the U.S.A. except some big city apartment dwellers has an interest in lawn maintenance. Because of this wide interest, much is written about lawn care in newspapers and magazines.

Unfortunately, many of these writings leave the wrong impression and some are basically incorrect. The strong desire to improve their lawn and their gross ignorance on the principles of lawn keeping make home owners very susceptible of misleading advertising.

IT IS hoped that the statements made here may, in some small way, clear up false impressions that are common among lawn "experts". The list is by no means complete.

Mowing

Fallacies — 1. Close mowing in the spring will make the grass spread; 2. The grass should go into the winter with excess growth to help it survive; 3. If the grass is cut short it will need mowing less often; 4. Close mowing will keep weeds from seeding and thus reduce weed problems; 5. The lawn will deteriorate if clippings are removed.

Facts — 1. Many experiments have shown that the closer grass is mowed, the more its vigor is reduced. The vigor of the grass is positively related to the leaf area exposed to sunlight. Mowing beyond that necessary to prevent the grass from flowering and seeding reduces its ability to spread.

2. There is no problem with recommended perennial cool season grasses being killed by cold growth going into the winter can cause trouble by increasing the likelihood of disease damage. Spring greenup is delayed since the new growth must overcome last season's accumulation before the lawn looks green. The dead leaves and stems contribute to thatch, which is a problem in grasses that make a tight sod such as bentgrass and Merion bluegrass. The proper practice is to continue to mow the grass until growth stops in late fall.

3. It is true that grass which is cut short will make less growth than grass cut at the proper height, but it is the "ragged" appearance of a lawn rather than the total amount of growth that causes the "needs mowing" look. The unwanted vegetation that is much more likely to be in a lawn cut too short grows at different rates to give the "ragged" appearance. In experiments at the Ohio Station, grass mowed 1/4 inch high needs mowing fully as often as grass mowed 2 inches high.

4. While some weeds are not adapted to close mowing, others can easily survive at shorter heights than an ordinary mower can cut. Annual bluegrass, crabgrass, goosegrass, and others will make seed when cut 3-16 to 14 inch. Bluegrass varieties mowed short for five years had 20 or more times more weeds when cut 2 inches high.

5. A thin sod that is inadequately fertilized may benefit from having the clippings. On the other

hand, a tight sod that is well fertilized will look better and will generally be more healthy if the clippings are removed. The clippings will contribute to thatch if not removed. The fertilizer elements removed with clippings are easily replaced with commercial fertilizers. This does not mean that it is impossible to have a nice lawn unless the clippings are removed. The improvement in appearance will not be worth the effort of removing clippings for many home owners.

Fertilizing

Fallacies — 1. "Chemical" fertilizers are bad for a lawn; 2. Acid-forming fertilizers should never be used on a lawn; 3. Fertilizer should never be applied in hot weather; 4. Fertilizer is "grass food"; 5. A complete fertilizer should be applied each time the lawn is fertilized.

Facts — 1. A good lawn can be had using all inorganic or "chemical" fertilizers, all organic, urea form, or a mixture of forms if used correctly. An Ohio experiment using ammonium nitrate, activated sewage sludge, or urea-form sources of nitrogen has shown no consistent difference in the quality of the resulting sod.

2. Most nitrogen sources used on a lawn are "acid-forming". Examples of exceptions are sodium nitrate and calcium cyanamide which are seldom used. Ammonium sulphate forms the most acid per pound of nitrogen. Common mixed fertilizers, ammonium nitrate, natural organics, urea, and ureaform all have essentially the same effect on soil acidity if used on an equivalent nitrogen basis. Soil acidity caused by nitrogen fertilizers can be easily corrected with lime.

3. While heavy applications of fertilizer should be made during the cool seasons of the year, light summer applications are often helpful. Summer nitrogen applications improve the color of grasses and may serve special purposes such as discouraging rust on Merion bluegrass. Summer is no time to fertilize a thin sod loaded with crabgrass and other summer weeds.

4. The basic food for grass (other plants and animals too) is the simple carbohydrates formed by the photosynthetic process. Fertilizers (along with the soil) supply the minerals used in the formation of more complex compounds and in the many life processes.

5. The soil (except sands) has the capacity to store large quantities of phosphorus and potash. When the soil is well supplied with these elements, nitrogen may be the only fertilizer element needed for several years. Nitrogen, the mobile element, must be applied timely.

Watering

Fallacies — 1. The lawn should never be watered when the sun is shining; 2. The grass will die from drought if not watered; 3. A little water every day is the best system.

Facts — 1. Watering when the sun is shining will not harm the grass if water is needed. There will be less loss from evaporation when the sun is not shining. Watering in early evening may encourage diseases since the grass will be wet all night. If there is a best time to water, it is probably early morning.

2. Grass will turn brown when the soil is very dry, but the possibility of a drought severe enough in Ohio to kill most lawn grasses is nil. If the lawn has been subjected to gross mismanagement, the sod will be too thin to provide insulation. The soil may get so hot in exposed areas that it kills

the grass. Bentgrass is much more susceptible to drought damage than is Kentucky bluegrass and red fescue, but it has survived and vigorously increased for the past 11 (and probably many more) seasons in unwatered plots at the Experiment Station. Annual bluegrass which is often mistaken for permanent grass, will die during a drought because it is the nature of the plant to do so.

One of the few controlled experiments to study lawn irrigation in the northern humid region of the U.S. was conducted in Ohio in the 1930's. After three years, the sod was better in terms of density and freedom from weeds where no irrigation water was applied. Proper irrigation will keep a lawn looking nice but will not basically improve an otherwise well managed Kentucky bluegrass or red fescue lawn. A bentgrass lawn should not be planted without irrigation facilities.

3. Although there is some room for argument, the majority of turfgrass research workers agree that when lawns are watered they should be thoroughly soaked at infrequent intervals. Shallow rooted grasses such as bentgrass will need more frequent irrigation than deeper rooted grasses. Watering every day would not be so bad if it were continued all season. A 2-week vacation can be fatal to a lawn so treated.

Weed Control

Fallacies — 1. The best time to kill dandelions is in the spring when they are blooming; 2. Chemicals are the best means of controlling crabgrass; 3. Crabgrass is any wide-bladed, spreading grass; 4. Moss and sour grass (sheep sorrel) are caused by acid soil.

Facts — 1. 2, 4-D will certainly do a good job on the dandelions in the spring, but fall is a better time to treat this and many other broadleaf weeds for at least 3 reasons: (a) The 2, 4-D is not so likely to injure trees, flowers, shrubs, and vegetables if used in the fall. (b) If dandelions are killed in May the spaces left in the sod are likely to be filled with crabgrass. Experiments in Ohio have shown this to be the case. With fall treatment, the spaces have time to fill with permanent grass before next year's crabgrass season. (c) With fall treatment, both the old crop and the new dandelions are killed.

2. Mowing Kentucky bluegrass and/or red fescue 2 inches or higher and adequate fertilization is the best and cheapest means of controlling crabgrass. Certainly there are chemicals which will do the job, but the crabgrass will return after the effect of the chemicals is gone unless steps are taken to correct the management practices. Dacthal and Zytren have consistently given good control when applied before crabgrass germinates. Calcium arsenate and other arsenicals have given good control sometimes and not at other times. DMA and AMA have given good control with repeated post emergence treatments.

3. Crabgrass is usually reserved for two species of Digitaria, D. sanguinalis (large or hairy crabgrass) and D. ischaemum (small or smooth crabgrass). They are both summer annuals with essentially the same characteristics except as noted by their name. Wide bladed perennial grasses are not killed with chemicals for controlling crabgrass. Some summer annual grasses may be controlled along with crabgrass, but good results with them should not be expected.

4. Moss appears when the grass is thin for any of several reasons.

The most common reasons are too much shade for the grass, too little fertilizer, and perhaps acid soil. Moss does not crowd out the grass, but merely grows where there is no grass. Sheep sorrel likewise can compete better with the grass under extremely acid conditions. The appearance of sheep sorrel or sour grass does not necessarily mean an acid soil. A soil test is the only reliable way to determine whether or not the soil is acid.

Miscellaneous Care

Fallacies — 1. A lawn should be overseeded every spring to keep the grass thick; 2. The lawn should be rolled each spring; 3. Peat moss or other organic material should be applied at intervals to build up the organic matter in the soil.

Facts — 1. Millions of pounds of grass seed are wasted each spring. If the lawn contains Kentucky bluegrass common or any variety, proper fertilization will produce a thick sod. Small bluegrass seedlings have practically no chance to develop to maturity in competition with older grass. If there are spots one square foot or larger where there is no bluegrass, work the spots as if seeding a new lawn and apply seed and fertilizer to them. If the lawn receives proper care, there should be very few of these spots. Seed is not needed to keep the sod thick — in fact, a well fed lawn is likely to need mechanical thinning to remove thatch.

2. A roller will push bunches of grass in thin spots, which have heaved from freezing and thawing, back into contact with the soil. The grass will settle back unaided in time. Rolling will not level an uneven lawn and can cause harm when the soil is wet or if the roller is very heavy. "Top-dressing" with good soil to fill in the low places is the way to smooth an uneven surface.

3. A well fertilized lawn will produce an excess of organic material at the soil surface (thatch). Additional organic material will contribute to the excess. Additions of top soil, on the other hand, will aid the decomposition of the thatch. Surface application of organic matter will not get into the soil. Lawn soil may be much improved by mixing in organic materials before seeding. The decaying roots of a good lawn sod is one of the best soil building processes known to man.

Athens Police, Firemen To Be Honored Monday

ATHENS, Ohio (AP) — "A day" to show appreciation to the Athens police and firemen will be held Monday.

Signifying appreciation, "a day" will honor all regular personnel of the departments publicly throughout the day. Climax of the program will come at a dinner in the evening at which time a cash contribution will be made to a joint equipment fund set up by the departments.

A paint brush probably figures in your spring clean-up plans, so keep these fire safety pointers in mind.

(1) For paint removing and brush cleaning, solvents labelled "non-flammable" are safest. If you must work with flammable ones, better use them outdoors. Indoors be sure windows are open, stoves, pilot lights and other ignition sources are off, and no smoking in the room.

(2) Get rid of old paint and solvent containers and those with small leftover amounts. Store paints and solvents only in capped metal containers — glass jars and bottles break easily, creating a definite fire hazard.

(3) Safest practice with rags used to wipe up paint or solvents is to dispose of them immediately. If you must store them, use a metal container with a tight cover. Another fire safety tip is:

WHENEVER using gasoline, be sure to treat it with respect. Remember it gives off flammable vapors which need only a tiny flame or spark to turn into searing fire or dangerous explosion.

So do all refueling outdoors where the dangerous vapors can't accumulate. Keep away from all ignition sources, and observe a strict no smoking rule. Wipe up all spilled gasoline before starting the motor.

Finally, keep gasoline in a tight-closing metal can — never in a glass jug or bottle.

If the electric iron isn't heating as fast as it should — or as hot as you'd like — don't fuss at the appliance. It may be you're overloading the electric circuit.

However, if fuses or circuit breakers are of the proper size, you'll receive a warning of an overload.

Wiring experts say these protective devices, if they are the correct size, will let you know when there is too much of a burden on wiring. The fuse will blow or the circuit breaker will pop open and cut off the current.

THAT'S why it's dangerous to use a fuse too large for the circuit. You lose the protection it is designed to give.

With a too large fuse, the demand may become too great for the circuit to deliver. The voltage will drop; light bulbs grow dim; and appliances won't operate at full capacity.

Should the voltage drop low enough, motors that turn on automatically — those on the furnace, and refrigerator — may attempt to start but never develop running current speed. Instead, they will churn away on high starting cur-

rent and burn themselves out. Motors on vacuum cleaners, electric mixers or fans also will over heat and may need to be replaced.

So, if you're having what looks like a power shortage, check circuits and calculate the load on each. A 14-ampere circuit will carry a load of 1650 to 1800 watt; a 20-ampere circuit can handle 2200 to 2400 watts.

Add up the wattage of all of the light bulbs and appliances on each circuit. Do they exceed these totals?

If they do, you'll have to take something off the circuit. Maybe you can shift an appliance from one side of the room to another to get it on a less used loop.

Before buying any new major appliance, check it to be sure there is enough power to operate it. You might find you can't use it until you add another circuit — and this will cost money.

But good electric service with ample capacity is worth a lot. In the long run, it's best to play it safe and install adequate wiring to handle lights and electrical appliances.

White House Lawn Fete Due Monday

WASHINGTON (AP) — Easter egg rolling on the White House lawn — a tradition started 72 years ago — will take place on Monday between 10 a.m. and 2 p.m.

All children under age 12 are invited. Adults will be admitted only when accompanied by a child. The Marine, Air Force, Army and Navy bands will take turns playing music with the Air Force bagpipers tooting in between.

President Kennedy and his family won't be on hand for the affair. They are spending the Easter holidays at Palm Beach, Fla.

Many Facts and Fallacies Crop Up Regarding Best Possible Lawn Care

By GEORGE HAMRICK
County Extension Agent,
Agriculture

There's no doubt about it: green is the color of spring. Look at your lawn. It is as green as it should be?

While you're thinking of lawns, you may be interested in some observations on "Facts and Fallacies of Lawn Maintenance" presented by Dr. R. R. Davis of the Ohio Agricultural Experiment Station's agronomy department at the 33rd annual Ohio short course for arborists, landscape contractors, garden center operators, and nurserymen. Here's what Dr. Davis said:

Practically every adult in the U.S.A. except some big city apartment dwellers has an interest in lawn maintenance. Because of this wide interest, much is written about lawn care in newspapers and magazines.

Unfortunately, many of these writings leave the wrong impression and some are basically incorrect. The strong desire to improve their lawn and their gross ignorance on the principles of lawn keeping make home owners very susceptible of misleading advertising.

IT IS hoped that the statements made here may, in some small way, clear up false impressions that are common among lawn "experts". The list is by no means complete.

Mowing

Fallacies — 1. Close mowing in the spring will make the grass spread; 2. The grass should go into the winter with excess growth to help it survive; 3. If the grass is cut short it will need mowing less often; 4. Close mowing will keep weeds from seeding and thus reduce weed problems; 5. The lawn will deteriorate if clippings are removed.

Facts — 1. Many experiments have shown that the closer grass is mowed, the more its vigor is reduced. The vigor of the grass is positively related to the leaf area exposed to sunlight. Mowing beyond that necessary to prevent the grass from flowering and seeding reduces its ability to spread.

2. There is no problem with recommended perennial cool season grasses being killed by cold growth going into the winter can cause trouble by increasing the likelihood of disease damage. Spring greenup is delayed since the new growth must overcome last season's accumulation before the lawn looks green. The dead leaves and stems contribute to thatch, which is a problem in grasses that make a tight sod such as bentgrass and Merion bluegrass. The proper practice is to continue to mow the grass until growth stops in late fall.

3. It is true that grass which is cut short will make less growth than grass cut at the proper height, but it is the "ragged" appearance of a lawn rather than the total amount of growth that causes the "needs mowing" look. The unwanted vegetation that is much more likely to be in a lawn cut too short grows at different rates to give the "ragged" appearance. In experiments at the Ohio Station, grass mowed 1/4 inch high needs mowing fully as often as grass mowed 2 inches high.

4. While some weeds are not adapted to close mowing, others can easily survive at shorter heights than an ordinary mower can cut. Annual, bluegrass, crabgrass, goosegrass, and others will make seed when cut 3-16 to 1/4 inch. Bluegrass varieties mowed short for five years had 20 or more times more weeds when cut 2 inches high.

5. A thin sod that is inadequately fertilized may benefit from having the clippings. On the other

hand, a tight sod that is well fertilized will look better and will generally be more healthy if the clippings are removed. The clippings will contribute to thatch if not removed. The fertilizer elements removed with clippings are easily replaced with commercial fertilizers. This does not mean that it is impossible to have a nice lawn unless the clippings are removed. The improvement in appearance will not be worth the effort of removing clippings for many home owners.

Fertilizing

Fallacies — 1. "Chemical" fertilizers are bad for a lawn; 2. Acid-forming fertilizers should never be used on a lawn; 3. Fertilizer should never be applied in hot weather; 4. Fertilizer is "grass food"; 5. A complete fertilizer should be applied each time the lawn is fertilized.

Facts — 1. A good lawn can be had using all inorganic or "chemical" fertilizers, all organic, urea form, or a mixture of forms if used correctly. An Ohio experiment using ammonium nitrate, activated sewage sludge, or urea form sources of nitrogen has shown no consistent difference in the quality of the resulting sod.

2. Most nitrogen sources used on a lawn are "acid-forming". Examples of exceptions are sodium nitrate and calcium cyanamide which are seldom used. Ammonium sulphate forms the most acid per pound of nitrogen. Common mixed fertilizers, ammonium nitrate, natural organics, urea and ureaform all have essentially the same effect on soil acidity if used on an equivalent nitrogen basis. Soil acidity caused by nitrogen fertilizers can be easily corrected with lime.

3. While heavy applications of fertilizer should be made during the cool seasons of the year, light summer applications are often helpful. Summer nitrogen applications improve the color of grasses and may serve special purposes such as discouraging rust on Merion bluegrass. Summer is no time to fertilize a thin sod loaded with crabgrass and other summer weeds.

4. The basic food for grass (other plants and animals too) is the simple carbohydrates formed by the photosynthetic process. Fertilizers (along with the soil) supply the minerals used in the formation of more complex compounds and in the many life processes.

5. The soil (except sands) has the capacity to store large quantities of phosphorus and potash. When the soil is well supplied with these elements, nitrogen may be the only fertilizer element needed for several years. Nitrogen, the mobile element, must be applied timely.

Watering

Fallacies — 1. The lawn should never be watered when the sun is shining; 2. The grass will die from drought if not watered; 3. A little water every day is the best system.

Facts — 1. Watering when the sun is shining will not harm the grass if water is needed. There will be less loss from evaporation when the sun is not shining. Watering in early evening may encourage diseases since the grass will be wet all night. If there is a best time to water, it is probably early morning.

2. Grass will turn brown when the soil is very dry, but the possibility of a drought severe enough in Ohio to kill most lawn grasses is nil. If the lawn has been subjected to gross mismanagement, the sod will be too thin to provide insulation. The soil may get so hot in exposed areas that it kills

the grass. Bentgrass is much more susceptible to drought damage than is Kentucky bluegrass and red fescue, but it has survived and vigorously increased for the past 11 (and probably many more) seasons in unwatered plots at the Experiment Station. Annual bluegrass which is often mistaken for permanent grass, will die during a drought because it is the nature of the plant to do so.

One of the few controlled experiments to study lawn irrigation in the northern humid region of the U.S. was conducted in Ohio in the 1930's. After three years, the sod was better in terms of density and freedom from weeds where no irrigation water was applied. Proper irrigation will keep a lawn looking nice but will not basically improve an otherwise well managed Kentucky bluegrass or red fescue lawn. A bentgrass lawn should not be planted without irrigation facilities.

3. Although there is some room for argument, the majority of turfgrass research workers agree that when lawns are watered they should be thoroughly soaked at infrequent intervals. Shallow rooted grasses such as bentgrass will need more frequent irrigation than deeper rooted grasses. Watering every day would not be so bad if it were continued all season. A 2-week vacation can be fatal to a lawn so treated.

Weed Control

Fallacies — 1. The best time to kill dandelions is in the spring when they are blooming; 2. Chemicals are the best means of controlling crabgrass; 3. Crabgrass is any wide-bladed, spreading grass; 4. Moss and sour grass (sheep sorrel) are caused by acid soil.

Facts — 1. 2, 4-D will certainly do a good job on the dandelions in the spring, but fall is a better time to treat this and many other broadleaf weeds for at least 3 reasons: (a) The 2, 4-D is not so likely to injure trees, flowers, shrubs, and vegetables if used in the fall. (b) If dandelions are killed in May the spaces left in the sod are likely to be filled with crabgrass. Experiments in Ohio have shown this to be the case. With fall treatment, the spaces have time to fill with permanent grass before next year's crabgrass season. (c) With fall treatment, both the old crop and the new dandelions are killed.

2. Mowing Kentucky bluegrass and/or red fescue 2 inches or higher and adequate fertilization is the best and cheapest means of controlling crabgrass. Certainly there are chemicals which will do the job, but the crabgrass will return after the effect of the chemicals is gone unless steps are taken to correct the management practices. Dacthal and Zytren have consistently given good control when applied before crabgrass germinates. Calcium arsenate and other arsenicals have given good control sometimes and not at other times. DMA and AMA have given good control with repeated post emergence treatments.

3. Crabgrass is usually reserved for two species of Digitaria, D. Sanquialia (large or hairy crabgrass) and D. ischaemum (small or smooth crabgrass). They are both summer annuals with essentially the same characteristics except as noted by their name. Wide bladed perennial grasses are not killed with chemicals for controlling crabgrass. Some summer annual grasses may be controlled along with crabgrass, but good results with them should not be expected.

4. Moss appears when the grass is thin for any of several reasons.

The most common reasons are too much shade for the grass, too little fertilizer, and perhaps acid soil. Moss does not crowd out the grass, but merely grows where there is no grass. Sheep sorrel likewise can compete better with the grass under extremely acid conditions. The appearance of sheep sorrel or sour grass does not necessarily mean an acid soil. A soil test is the only reliable way to determine whether or not the soil is acid.

Miscellaneous Care

Fallacies — 1. A lawn should be over-seeded every spring to keep the grass thick; 2. The lawn should be rolled each spring; 3. Peat moss or other organic material should be applied at intervals to build up the organic matter in the soil.

Facts — 1. Millions of pounds of grass seed are wasted each spring. If the lawn contains Kentucky bluegrass common or any variety, proper fertilization will produce a thick sod. Small bluegrass seedlings have practically no chance to develop to maturity in competition with older grass. If there are spots one square foot or larger where there is no bluegrass, work the spots as if seeding a new lawn and apply seed and fertilizer to them. If the lawn receives proper care, there should be very few of these spots. Seed is not needed to keep the sod thick — in fact, a well fed lawn is likely to need mechanical thinning to remove thatch.

2. A roller will push bunches of grass in thin spots, which have heaved from freezing and thawing, back into contact with the soil. The grass will settle back unaided in time. Rolling will not level an uneven lawn and can cause harm when the soil is wet or if the roller is very heavy. "Top-dressing" with good soil to fill in the low places is the way to smooth an uneven surface.

3. A well fertilized lawn will produce an excess of organic material at the soil surface (thatch). Additional organic material will contribute to the excess. Additions of top soil, on the other hand, will aid the decomposition of the thatch. Surface application of organic matter will not get into the soil. Lawn soil may be much improved by mixing in organic materials before seeding. The decaying roots of a good lawn sod is one of the best soil building processes known to man.

A paint brush probably figures in your spring clean-up plans, so keep these fire safety pointers in mind.

(1) For paint removing and brush cleaning, solvents labeled "non-flammable" are safest. If you must work with flammable ones, better use them outdoors. Indoors be sure windows are open, stoves, pilot lights and other ignition sources are off, and no smoking in the room.

(2) Get rid of old paint and solvent containers and those with small leftover amounts. Store paints and solvents only in capped metal containers — glass jars and bottles break easily, creating a definite fire hazard.

(3) Safest practice with rags used to wipe up paint or solvents is to dispose of them immediately. If you must store them, use a metal container with a tight cover. Another fire safety tip is:

WHENEVER using gasoline, be sure to treat it with respect. Remember it gives off flammable vapors which need only a tiny flame or spark to turn into searing fire or dangerous explosion.

So do all refueling outdoors where the dangerous vapors can't accumulate. Keep away from all ignition sources, and observe a strict no smoking rule. Wipe up all spilled gasoline before starting the motor.

Finally, keep gasoline in a tight-closing metal can — never in a glass jug or bottle.

If the electric iron isn't heating as fast as it should — or as hot as you'd like — don't fuss at the appliance. It may be you're overloading the electric circuit.

However, if fuses or circuit breakers are of the proper size, you'll receive a warning of an overload.

Wiring experts say these protective devices, if they are the correct size, will let you know when there is too much of a burden on wiring. The fuse will blow or the circuit breaker will pop open and cut off the current.

THAT'S why it's dangerous to use a fuse too large for the circuit. You lose the protection it is designed to give.

With a too large fuse, the demand may become too great for the circuit to deliver. The voltage will drop; light bulbs grow dim; and appliances won't operate at full capacity.

Should the voltage drop low enough, motors that turn on automatically — those on the furnace, and refrigerator — may attempt to start but never develop running current speed. Instead, they will churn away on high starting cur-

rent and burn themselves out. Motors on vacuum cleaners, electric mixers or fans also will over heat and may need to be replaced.

So, if you're having what looks like a power shortage, check circuits and calculate the load on each. A 14-ampere circuit will carry a load of 1650 to 1800 watt a 20-ampere circuit can handle 2200 to 2400 watts.

Add up the wattage of all of the light bulbs and appliances on each circuit. Do they exceed these totals?

If they do, you'll have to take something off the circuit. Maybe you can shift an appliance from one side of the room to another to get it on a less used loop.

Before buying any new major appliance, check it to be sure there is enough power to operate it. You might find you can't use it until you add another circuit — and this will cost money.

But good electric service with ample capacity is worth a lot. In the long run, it's best to play it safe and install adequate wiring to handle lights and electrical appliances.

White House Lawn

Fete Due Monday

WASHINGTON (AP) — Easter egg rolling on the White House lawn — a tradition started 72 years ago — will take place on Monday between 10 a.m. and 2 p.m.

All children under age 12 are invited. Adults will be admitted only when accompanied by a child. The Marine, Air Force, Army and Navy bands will take turns playing music with the Air Force bagpipers tooting in between.

President Kennedy and his family won't be on hand for the affair. They are spending the Easter holidays at Palm Beach, Fla.

Classified Birthday

It will be news to many that the classified ad, the little three liner that is crowded into tiny type, is 258 years old. Some say it is the oldest form of advertising in North America.

The first want ads appeared in the first week in May, 1704, in the Boston News-Letter. Last year more than a billion lines of classified advertising appeared in the nation's newspapers. Classified advertising has been termed everybody's advertising, and it is not difficult to fathom why this is so.

A large percentage of newspaper readers scans the classified ads assiduously every day. They are interesting reading, and a handy guide to bargains and services that it would be impossible to locate by any other method.

A salesman says that when moving into a new territory he reads the classified ads in the local newspaper carefully. They are an accurate barometer of the health of the community.

Classified ads have an uncanny knack of getting buyer and seller together. Because they are unashamedly advertising with no other reading matter to separate them, classifieds prove that people buy newspapers to read the ads as well as for news and entertainment. The classifieds pull their weight, no doubt of that.

A 258th birthday is no small occasion, and it is appropriate that a few lines of space in larger type be devoted to a salute to a section of the paper which is set in a more modest type face.

Is Russia Slipping?

Dr. John Turkevich, a Princeton University expert on Soviet educational methods, had this to say in a recent speech:

"The Soviet Union is economically weak, and communism is not working out. The Soviet leadership has succeeded, by careful propaganda and exploitation of space and atom - bomb achievement, to create an image of overall strength."

Those are pretty heady words and we hope that Dr. Turkevich knows what he's talking about. As for us, however, we are going to continue to believe that the Russians are rough and tough and nasty. In addition, we are going to continue to believe that they are quite capable of wiping the map with the rest of us if we ever relax our present efforts to get ahead of them in every field of endeavor.

There are plenty of Dr. Turkevichs in this world. They may be right, but they may be wrong, when they say that the Soviet is slipping. Meanwhile, let's wait for the Soviet Union to fall flat on its face before we start sighing with relief.

LAFF-A-DAY

"Don't you hup-two-three-four me!"

Try and Stop Me

By BENNETT CERF

GEORGE KIRGO, making a survey of new circus acts in Europe, came across one troupe that features a man diving 200 feet into a sofa pillow. "Of course," amplifies Kirgo, "they use a different man every night."

Two extremely intoxicated celebrants at a college reunion sought still another bottle to imbibe—and found one in the garage of the motel where they were registered. One took a long swig and gulped. "This is powerful stuff," and passed it to the other, saying, "Maybe you'll know what it is." The other sampled the liquid, and gasped, "Holy mackerel! You've been drinking GASOLINE." "I know that, Stupid," grumbled the first, "but what kind: regular or high test?"

On top of the pie list on the menu of a Madison, Wis., shop house is printed the reminder: "Remember the Alamo."

Inside You and Yours

By BURTON H. FERN, M. D.
How can baby be so playful with his temperature zooming to 105 degrees every afternoon?
He could have roseola in fantum — also called exanthem subitum and baby measles. Roseola strikes mainly the diaper set, especially during spring and fall. Almost everyone catches roseola during the first few years. After that you're immune.
A week or two after Baby catches

es the virus, his temperature suddenly skyrockets — sometimes high enough to trigger convulsions. But he still wants his rattle and blocks.

Only Mom is all in a sweat! A mild red throat and slightly stuffy nose can hardly account for his high fever. And so the doctor may suggest roseola.

No one can be certain what it is until the 4th or 5th day. Then the fever suddenly breaks and pink blotches break out on his trunk, arms and neck. Face and legs stay almost rash-free.

Within a day the blotches fade, leaving no trace of roseola.

Unlike roseola, the measles rash breaks out at the height of feverish misery. And German measles rarely sends the mercury over 101 degrees or 102 degrees.

Give aspirin every 4 to 6 hours for fever over 101 degrees — 1½ grains (¼ of an adult aspirin) for 1-year-olds; twice the dose for 2-year-olds.

When fever rages over 103 degrees, sandwich Baby between a dry towel and one soaked in a solution of half alcohol, half lukewarm water. Cover the wet towel with a dry one.

As the solution evaporates, it cools Baby's skin. Rub his arms and legs briskly to bring more hot blood to the cooling surface. Even though his skin feels cool, his inner temperature won't drop for at least 20 minutes.

Keep a nearby window open. Otherwise, Baby may inhale evaporating alcohol. When he cools, you want him to be able to toddle a straight line!

Dr. Fern's mailbox is wide open for letters from readers. While he cannot undertake to answer individual letters, he will use readers' questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Fern in care of this newspaper.

Kennedy's Different Concept

By George Sokolsky

In retrospect, the only real significance of the case of Kennedy vs. Steel is that by a single act the President has expanded the power of his office without legislation. This was attempted by Franklin D. Roosevelt throughout his regime, but no matter where else

Roosevelt succeeded, he never actually gained complete control of the economy. The National Recovery Act was an attempt in that direction but the NRA was declared unconstitutional in the *Sick Chicken Case*. It was beyond question a fascistic measure and it is interesting to note that its true nature was not generally recognized until it reached the Supreme Court.

President Kennedy has been able to gain control of the economy because the government is the principal customer of manufactured goods. Roosevelt sought to establish a similar control by creating "yardstick" businesses; that is, companies engaged in manufacturing heavy goods in competition with existing companies. At first it was contemplated that the government would own such companies, but wiser counsel prevailed and loans were made through the Reconstruction Finance Corporation and other agencies to accomplish the same end. The various Kaiser enterprises started that way.

President Kennedy has developed a different concept. The government will neither own nor operate these enterprises, but it will control prices. The United States Steel Corporation precipitated this by its inept and inopportune announcement that it would raise prices. Good public relations would only have been sound after the new wage agreement had been in operation some time and the evidence was clear that the price was insufficient to maintain efficient plant and equipment. The President was able to ignore this question because the industry failed to make it clear to the people. Businessmen usually do not grasp the essence of public relations and therefore failed to prove their point or to have any sense of timing.

The President was able to mobilize his entire Cabinet, particularly the Departments of Justice and Defense to fight this battle which soon enough involved the questions of inflation, of trusts, of cartels to control prices, of defense contracts, that the steel industry split, for if some companies did not receive defense contracts, their production would be trivial. After all, the steel industry was hardest hit during the Depression and was rescued by government contracts and by war.

A government contract is rarely beneficial for any business, what, with shifting specifications, whimsical controls, and renegotiations long after the goods have been delivered. Nevertheless, when it is the best business available, it becomes prime. Today, the American steel industry exports about as much steel as is imported. The peril is that we shall import so much steel as to endanger our home industry. This Department of Defense can hold over the head of the industry. Therefore, companies largely or wholly dependent on government must function on the principle that the customer is always right.

The President has won a victory

in the expansion of Presidential powers and has established the fact that his hold on his Cabinet and on Congress is complete, but he has frightened privately-owned enterprise and the private investor beyond anything that had heretofore been experienced. This is a by-product of the President's press conference and his implied attack on profits which did not go over well.

The President does not have Roosevelt's gift of sarcasm. When Roosevelt employed this rhetorical device, it was like a piercing rapier. President Kennedy can display anger but no nastiness. Therefore, his reference to profits only frightened. This is unfortunate at a time when the country requires unity of purpose in the face of our enemy.

It will take a great effort on the part of the President to re-establish a sense of confidence in the business world, particularly as his enemies now have a slogan to use against him, namely, that he is opposed to the profit system. The alternative to the profit system is Socialism. President Kennedy, having definitely indicated what he can do if necessary, is too smart to upset the economic apparatus and will undoubtedly take reparative measures. His greatest task now is to control those who will take advantage of this fracas to so alter our economic system as to make it unworkable. That may be a more difficult task than defeating the steel industry.

Surplus Wheat Under U.S. Loan Hits New Low

WASHINGTON (AP) — Rising market prices have caused many wheat growers to pay off their federal crop price support loans and in cash rather than allow the grain to go to the government. The result: The quantity of wheat remaining under price support loans on March 31 was the smallest for that date in a decade, the Agriculture Department says. The department reported that 41 per cent of the 1961 crop—113 million bushels — has been redeemed by the borrowing producers. It had been stored under the average price support of \$1.78 a bushel.

The government still has plenty of wheat, however. Supplies accumulated from crops prior to 1961 total around 1,088,000,000 bushels, costing about \$2.15 billion.

WASHINGTON (AP)—Producer prices of fluid milk have been easing off from March levels and are running slightly below a year ago.

An Agriculture Department survey shows that prices for fluid milk used for bottle distribution averaged \$5.24 a hundredweight in 160 markets over the country early this month. This was 19 cents below the March average and 5 cents below the April average last year.

But retail prices were said to be averaging about the same or slightly higher than a year ago.

WASHINGTON (AP)—The Agriculture Department reports the European corn borer caused fewer losses to the grain crop last year than in 1960.

It estimates the insect pest destroyed 65 million bushels of the grain having a total value of about \$69 million. In 1960, losses were estimated at 103 million bushels having a value of \$96 million. Last year's bushel loss was the smallest since 1952.

Trio Moved To Another Kentucky Jail

LEXINGTON, Ky. (AP)—Three men accused of robbing a Hazard doctor and pistol-whipping his wife have been brought to Fayette County jail for security reasons. Hazard policeman Sam Luttrell said several strange cars were seen passing the Hazard jail Thursday. He indicated the men were transferred by Hazard and state police to insure their safety.

Police Chief Bud Luttrell said a fingerprint check by state police at Frankfort established Thursday that a man who gave his name as Dale O'Connell, Tampa, Fla., was Roy Gambriel, no address given.

The other two were listed as Cecil Nichols, Lexington, and Russell Reid Gotherman, Hamilton, Ohio. Chief Luttrell said Gotherman told him he was on parole from a London, Ohio, prison on charges of armed robbery and second degree murder.

The trio is accused of robbing Dr. L. H. Wagers of \$1,300 after tying up the doctor and a neighbor, and then slugging Wagers' wife when she returned from a church missionary circle meeting. They were captured at a roadblock shortly afterward Tuesday night and held for the May term of the Perry Circuit Court.

St. Lawrence Seaway Due To Open Monday

MASSENA, N. Y. (AP) — Repairs have been completed to a cracked sill in the Eisenhower Lock of the St. Lawrence Seaway and the international waterway will open for the season Monday. The seaway had been scheduled to open April 15. Discovery of a crack in a sill beneath the east gates forced Seaway officials to order a delay in the start of the shipping season. The target date was next Tuesday.

New Appointments Law's Legality Pondered

COLUMBUS, Ohio (AP)—An attack on constitutionality of a new law changing the manner of filling vacancies in most elective county offices has cast a shadow over a dozen appointments already made or pending.

Ohio's Supreme Court is considering pleas, termed politically inspired, to overturn an enactment by the last legislature and declare the old statute in effect.

The dispute stemmed from claims by two Cincinnatians of opposite political faith that each was legally appointed to the va-

cancy created by the death last Nov. 5 of Hamilton County Clerk of Courts Elmer F. Hunsicker, a Republican.

Ben Hayes, appointed by the board of county commissioners composed of two Democrats and a Republican, asked the high court to oust Robert D. Jennings, named by the Republican County Central Committee to the vacancy. Hayes said he went to court because Jennings refused to surrender the office to him.

Jennings was appointed under the new law empowering county central committees to name a

successor of the same party to vacancies in the offices of commissioner, auditor, treasurer, clerk of courts, sheriff, recorder, engineer and coroner. Such appointees serve until a successor is elected and qualified.

Judicial vacancies still are filled by the governor and those in the prosecutor's office by common pleas judges under the new law.

The old statute allowed county commissioners to appoint to such vacancies, except on their own board, which was done by the probate judge, auditor and recorder.

Attys Sidney Weil Jr. and Harry M. Hoffheimer, state racing commission chairman, argued in the Supreme Court that central committee members elected in party primaries are not public officials and hence cannot make appointments to public office.

They contended the legislative attempt to shift appointive power from commissioners to the committees violated state and federal constitutions. Both asked the court to declare the old law in full force and effect.

Hamilton County Prosecutor C. Watson Hoover asserted there is

no constitutional requirement in Ohio for only public officials to make such appointments.

"Whether the county central committee amounts to a public office or not," Hoover said, "it is nevertheless, one which for any years has existed by virtue of specific statutes. It is uniform in status and function in all 88 counties in the state and legislation conferring additional functions is certainly of general and equal application."

Judges have not indicated when they would hand down a decision.

Meanwhile, a vacancy created by the death of Licking County Coroner Kenneth P. Scott remains unfilled.

Only last March 31, the Licking County GOP Central Committee appointed Sheriff John Koonz, a Republican, to succeed the late William A. McElroy Sr.

Other appointments under the new law since it became effective include:

Tuscarawas County Commissioner Joe F. Cappell, Democrat, named Oct. 30 to succeed the late Delbert V. Clark.

Crawford County Clerk of Courts Esther Calhoun, Democrat, Nov. 25 to succeed the late Mabel Mullen.

Muskingum County Auditor Gen- us T. Payne, Democrat, Nov. 30

to succeed the late John H. Fenton.

Lorain County Commissioner James P. Horn, Democrat, Dec. 7 to succeed Michael J. Lotke Jr., resigned.

Wayne County Clerk of Courts Clyde C. Myers, Republican, Feb. 7 to succeed the late Richard C. Rudy.

Crawford County Commissioner Richard Shealy, Democrat, Feb. 23 to succeed the late Roy Eichhorn.

Monroe County Sheriff Francis L. Salsberger Jr., Democrat, Feb. 23 to succeed Homer W. Antill, resigned.

Noble County Coroner Frederick M. Cox, Republican, April 16, to succeed the late Dr. N. S. Reed.

Ohio Senior Senator Causes Hot Moment during Hearing

WASHINGTON (AP) — Sen. Frank J. Lausche, D-Ohio, created a stir at a recent Senate Commerce Committee session. He fired up a whole box of matches while trying to light his cigar and started a lively blaze in an ash-tray.

The accident interrupted a hearing on the nomination of Dr. John H. Hollomon of Schenectady, N. Y., to be assistant secretary of commerce for science and technology.

Committee aids used a tried and true scientific method of putting out the fire—they doused it in water.

WASHINGTON (AP) — Rep.

Mayor Caught In Middle as Factory Folds

MASSILLON, Ohio (AP)—Mayor William J. Keen is a man on the spot in the wake of the announcement that the 50-year-old Grisco-Russell Co. is closing its plant here by July 31 and transferring operations to Eddystone, Pa.

Five hundred employees are affected—including Mayor Keen.

The move was announced Thursday by William S. Ginn, president of the Baldwin-Lima-Hamilton Corp., which acquired Grisco-Russell as a subsidiary in January.

Mayor Keen is concerned with the general welfare and financial problems of the city caused by the loss of its second-largest industry. The mayor, on leave of absence from Grisco-Russell, is still working at the plant part time as personnel director. So he is directly concerned with the problems of each employee.

He also must decide if he will stay with the company and move to Eddystone, a Philadelphia suburb, or stay here as mayor.

The mayor said the company's \$5-million payroll provides Massillon with \$30,000 a year in income taxes.

Grisco-Russell was purchased by Baldwin-Lima-Hamilton from the Hamilton-Thomas Co. of Hamilton, Hamilton-Thomas had acquired control in January 1960 from General Precision Corp., the owner from 1955-60. The company makes heat exchangers for ships, power stations and refining plants, some nuclear products and other heavy industrial equipment.

The company said it will establish an employment office for those workers who are not transferred to Eddystone or any who do not want to move.

Army Pvt. Lloyd F. Chilcote, son of Mrs. Airie L. Chilcote, 216 Nicholas Drive, is participating with other personnel from the 4th Armored Division's 78th Artillery in an eight-week field training exercise in Grafenwohr, Germany. The training is scheduled to end May 16.

Chilcote is a wireman in the artillery's Battery B which is regularly located in Craillheim. He entered the Army in May 1960, completed basic training at Fort Knox, Ky., and was stationed at Fort Sill, Okla., before arriving overseas in October 1960.

Police Probe Deaths of 3 Boys on Road

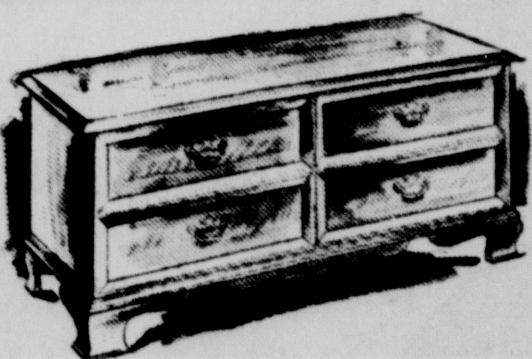

ST. CLAIRSVILLE, Ohio (AP) — Authorities still are investigating the death of three youths struck by an automobile Thursday night.

The boys, David Ventula, 10; Dennis Thompson, 10, and his brother, Raymond, 15, all of Holloway, were lifting bicycles into the back of a truck when the accident occurred.

A fourth boy, Covert Neilson, 14, was on the truck and was not hurt.

The car was driven by a long-time friend of the boys, Wilbur Fritter, 37, also of Holloway. Fritter, who is suffering from shock, is paralyzed below the waist as a result of a World War II injury. In the car also was David Ventula's brother, Frank, 15. Deputies said the youths were en route home along Ohio 331 after a fishing trip to nearby Piedmont Lake when a rain and snow storm hit.

Orlando Melchiori, 60, of Holloway, who was driving the truck, saw the four boys and offered them a ride.

Army Pvt. Lloyd F. Chilcote, son of Mrs. Airie L. Chilcote, 216 Nicholas Drive, is participating with other personnel from the 4th Armored Division's 78th Artillery in an eight-week field training exercise in Grafenwohr, Germany. The training is scheduled to end May 16.

Chilcote is a wireman in the artillery's Battery B which is regularly located in Crailsheim. He entered the Army in May 1960, completed basic training at Fort Knox, Ky., and was stationed at Fort Sill, Okla., before

arriving overseas in October 1960.

The 18-year-old soldier attended Circleville High School and was employed at the Circleville Oil Co. before entering the Army.

Phil C. Rose, USN, son of Mr. and Mrs. Conrad E. Rose, Ashville, is serving aboard the tank landing ship USS Choboygan County, at Norfolk, Va.

THREE Army privates from Circleville recently were assigned to the newly activated 1st Armored Division at Fort Hood, Tex. They are:

Lloyd W. Crosby, son of Mr. and Mrs. Willard E. Crosby, 380 Walnut St., who entered the Army in November 1961 and was last stationed at Fort Knox. The 19-year-old soldier is a 1961 graduate of Circleville High School.

Frederick H. Murray, whose wife, Alberta, and parents, Mr. and Mrs. Arthur L. Murray, live on Route 4, entered the Army in December 1961 and completed basic combat training at Fort Knox, Ky. He attended Salt Creek Twp. High School.

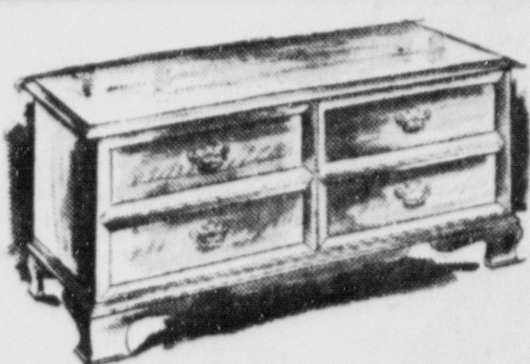

Ralph L. Jacobs, whose wife, Karen, and parents, Mr. and Mrs. O. Jacobs, live at 164 Watt St., entered the Army last December. The 18-year-old soldier attended Circleville High School.

St. Lawrence Seaway Due To Open Monday

MASSENA, N. Y. (AP) — Repairs have been completed to a cracked sill in the Eisenhower Lock of the St. Lawrence Seaway and the international waterway will open for the season Monday.

The seaway had been scheduled to open April 15. Discovery of a crack in a sill beneath the east gates forced Seaway officials to order a delay in the start of the shipping season. The target date was next Tuesday.

Terrycloth Is A Big Hit This Season

By ELEANOR ROSS

Once upon a time — and not too long ago, either — a terrycloth robe meant just one thing: a nice, simple, wrap-around robe with a pocket and a self-tie-belt. We all loved it because it was so comfortable to put on after a bath or to wear on the beach with a bathing suit.

Wide Choice

But when you fare forth to buy a terry robe nowadays, you have quite a job to make a choice. For terry robes take every conceivable shape and styling. In fact, you could wear one every day for a month without repetition.

This season's terry robe may have butterfly wing sleeves and come in dress length, or it may take the form of a point smock, be trimmed with braid and cut to flare like a duster or have a collarless neckline, button up the front and two gigantic pockets with a big, bright fruit applique.

The comfort, absorbency and easy machine-washability of terrycloth have also inspired some charming styles that are first cousin to the robe.

Terry culottes look like a flattering house dress. Fringed poncho coats go over stretch pants at home or over swim suits at the beach.

One-piece shirt-and-shorts outfits are ideal for patio, gardening, tennis — and especially for housecleaning. Then there are hooded parkas which have many uses for all the year round.

Something New

Quite new is the after-bath shift made of terry. Just slip into it without bothering to dry off. These shifts are gaily patterned in gold, blue or rose, with bold print flowers. They zip up the front, too, which makes them easy to get in and out of and let you look pretty glamorous while you're relaxing between bath and dressing.

The fresh, zip-laundered look, feel and comfort of terry-cloth endear it to everybody's heart, so it's no wonder that designers just can't let it alone!

Mrs. Eshelman Invited To Ohioana Luncheon

Mrs. John W. Eshelman III, Ohioana Library chairman or Pickaway County, has been invited to be the Library's guest at a luncheon April 28 at the Green Meadows County Inn, Worthington. The luncheon will honor Dr. William Coyle, editor of the Library's publication "Ohio Authors and Their Books, 1796-1950."

GOP Booster Meet Is Thursday

A GOP Booster meeting is scheduled for 7:30 p. m. Thursday in the home of Mrs. Robert M. Barnes, 578 E. Main St.

Calendar

MONDAY
DEMOLAY MOTHERS, 8 P. M., at the Masonic Temple.
PICKAWAY COUNTY WOMEN'S Republican Club, 12:30 p. m., Scioto Valley Grange Hall.

TUESDAY
BERGER HOSPITAL GUILD NO. 37, 8 p. m. at the bus station.
BERGER HOSPITAL GUILD NO. 40, 8 p. m. in the hospital guild room.
CIRCLEVILLE CHAPTER 90, OES, inspection and initiation, 8 p. m. in the Masonic Temple.

THURSDAY
BERGER GUILD NO. 29, 8 P. M., in the home of Mrs. Fred Minshall, Route 1, Kingston.
GOP BOOSTER MEETING 7:30 p. m., in the home of Mrs. Robert M. Barnes, 578 E. Main St.

FRIDAY
BERGER HOSPITAL GENERAL Guild, 8 p. m. in the guild room at the hospital.

Fine Selection Easter Candies

At
PAUL'S DAIRY STORE
111 W. Main St.

business meeting conducted by Mrs. Edward Grigg, co-chairman. Mrs. B. T. Hedges and Miss Elizabeth Stevenson read reports.

Mrs. Grigg announced a recommended reading list concerning Missions and the Church.

The containers for the "Fellowship of the Least Coin" were distributed to the group. They are to be collected in September and sent to an international fund administered by the East Asia Christian Conference for projects of evangelism.

Mrs. Renick reported on the Presbyterian meeting she attended at the E. Broad St. Presbyterian Church in Columbus, April 2.

Mrs. Theodore Huston, program chairman, introduced Miss Mary Hulise who conducted the devotional period and honored the missionaries listed in the "Mission Yearbook of Prayer."

The study on the seventh chapter of "Paul's letter to the Romans" was presented by Mrs. Harold H. Whitmore. She used Throckmorton's study guide on Romans, supplemented by "Romans for the Layman" by Throckmorton and the Phillips interpretation of chapter VII of Romans. A discussion period followed.

The next meeting will be in the home of Mrs. Huston on May 17.

Complexions Of Teen-agers Need Care

By JOAN O'SULLIVAN

You don't need a magnifying mirror to make a big thing out of a small blemish. All you need is to be a teenager, unsure of yourself, sure only that even a minor drawback is a major liability.

It's an age of social insecurity. That's why a girl gets a bad case of the glooms when she spots a blemish. She's certain it's the first thing everyone will notice when they talk to her.

Not so at all — but try to convince a teen-ager of this. You won't get any place.

Treat The Trouble

About the best way to handle the touchy situation is to come up with some cosmetic treatments for troublesome skin. There are several on the market.

One is a scrub-up set that not only treats trouble but tries to prevent it.

Trio Of Aids

The set contains a trio of aids: 1. Medicated soap with oatmeal ingredients.

2. Refining lotion to reduce coarse pores and discourage future blemishes.

3. Blemish cream to help heal and conceal blemishes and imperfections.

Pressed Powder

Another newcomer to a line that features several medicated cosmetics is a pressed-powder make-up that includes such ingredients as zinc oxide, zinc sulfide, sulfur and hexachlorophene. It covers complexion troubles and has healing qualities as well.

The make-up is applied with a damp sponge, and instructions stress the importance of washing the sponge clean after each application.

General Guild To Meet Friday

Berger Hospital General Guild will meet 8 p. m. Friday in the guild room at the hospital. This will be the annual meeting in which all chairmen will give their yearly reports.

New Soviet Sheep Has Brown Wool

MOSCOW (AP)—The Soviets reported today they have bred an astrakhan sheep with a coat of shaded brown instead of the usual gray.

"The base of this astrakhan is not dark gray as is that of the common variety," said Tass, the Soviet news agency, "but dark brown of a stable deep hue. Its tight curls have a beautiful silvery or golden sheen."

Tass said the new breed was developed on a state range in Uzbekistan, the Soviet Union's main supplier of astrakhan—or karakul—skins.

TOO BIG A HOLE

When glass breaks you can't ignore that broken window. It is just too big a hole. Replacing it can be expensive, but it has to be done. The only question is — who pays the bill? Insured glass is promptly replaced and we pay for it. May we quote on the glass insurance you need?

Mrs. Hanson Presides at Guild Meeting

Berger Hospital Guild No. 20 met April 18 at the home of Mrs. Fred Overly. The business meeting was conducted by the newly elected chairman, Mrs. Richard Hansen.

During the meeting Mrs. Margaret Evans and Mrs. Paul Thompson were appointed to a card committee.

The group decided to conduct a products party May 16 at Jackson School.

"Mystery Sister" gifts were distributed.

Games were played and those winning prizes were Miss Dhele Renick, Mrs. Robert Hettinger, Mrs. Ross Hamilton, Mrs. Carl Russell and Mrs. Fred McGlone.

Hostesses for the April meeting were Mrs. Fred Overly, Mrs. Ralph Stevenson and Miss Mary Clark.

OES Reservations Are Due April 25

Members of Circleville Chapter 90 of the Order of Eastern Star interested in attending the dinner and visit to Lockbourne Air Base May 1, must make reservations by contacting Mrs. Emma Curlett, secretary, by April 25 instead of the previously announced date.

Members will meet at the Masonic Temple at 5 p. m. on the date of departure.

When you use canned vegetables or fruits in salads, make extra sure that the vegetables or fruits are thoroughly drained.

EASTER EGG FACTORY—Finishing touches are being put on huge, frilly Easter eggs in a factory in Rome, Italy. The traditional eggs are made of chocolate and have surprise gifts for the children inside them.

Dear Abby: Never!

by Abigail Van Buren

DEAR ABBY: We have a discussion about the letter in your column from "Neighbor Lady" who noticed, while cleaning her Venetian blinds, that a high school couple stood out in front of her house for an hour looking into each other's eyes, holding hands and acting so in love right there on the sidewalk. She asked if she should tell that girl's mother because that's the way trouble starts. And you gave her one of your smart aleck answers like, "You must have the cleanest Venetian blinds in town. Now go to work on your mind."

Abby, I think you were wrong. You should have told her to tell the girl's mother. That IS the way trouble starts with those boy-crazy girls. Please retract your answer.

ANOTHER LADY

DEAR ABBY: Sorry, but I can't retract my answer. Just what did YOU do in high school that makes you suspicious of every teen-age girl who holds hands with a boy, and in the open yet?

DEAR ABBY: I've been married for four months. I'm 44 and my wife is 40. She insists on doing her housework in her nightgown. I think she ought to put on some clothes, especially to hang the laundry on the line. She says, it is old-fashioned and I say I don't care if it is. What is your opinion?

HOUSTON

DEAR HOUSTON: I say she should put on a neat housedress every morning. Sloppiness is

"old-fashioned" in modern living, too.

DEAR ABBY: When a father dies, and the mother is not able to pay for the funeral, which of their children should pay for the burial? Is it the duty of the sons or the daughters?

DEEP IN DOUBT

DEAR DEEP: Each son and daughter should contribute according to his or her capabilities, for the deceased was the father of all of them.

DEAR ABBY: You are mistaken. Pizza is NOT pie. It is bread. And no one eats pizza with a knife and fork. An Italian would no more think of eating pizza with a fork than a Mexican would think of eating tacos with a fork. Thank you.

DIANE

Stop worrying. Let Abby help you with that problem. For personal reply, enclose a stamped, self-addressed envelope. Box 3365, Beverly Hills, Calif.

Dayton 'Charity' Under State Fire

COLUMBUS, Ohio (AP)—Atty. Gen. Mark McElroy announced today that he had filed a suit in the Montgomery County Court of Appeals seeking to dissolve an alleged charitable corporation.

The attorney general said the corporation is known as the "Brotherhood of the Blind," and has also used the name of "Independent Order of the Noire," in its activities in the Dayton area. He said evidence accumulated by his office supports his view that the company had collected at least \$1,700 in the pretext of helping the blind, but that all of the money was spent by the promoters in the campaign to raise funds.

Tomato aspic makes an excellent first-course salad if it is accompanied by anchovies or sardines. Garnish the combination with water cress or other salad greens.

EASTER PARADE—As a matter of fact, it is, but it's grandfather's, not yours. It's the Easter parade at the turn of the century along Atlantic City's Boardwalk.

9 Ohio Cities To Submit Hiring Policies

COLUMBUS, Ohio (AP)—Nine Ohio cities have been asked to submit information on their civil service hiring practices to the state's Personnel Board of Review.

The request to the cities followed a complaint from a public employee union that employment practices in the cities had reduced public employment "to a level of partisan spoils."

The accusations were made last week by Ohio Public Employees Council No. 8 of the American Federation of State, County and Municipal Employees (AFL-CIO). The cities named were Springfield, Youngstown, Marion, Bellefontaine, Newark, Mansfield, Canton, Warren and East Liverpool.

The Board of Review sent letters Friday to civil service commissions in each of the nine cities asking explanations of their hiring practices by May 10. "The

board wants to obtain full facts before deciding anything," a spokesman said.

Succeeding governors have created a far-famed brotherhood of outstanding men and women which has become formally organized.

Members hold a banquet once each year on the eve of the Kentucky Derby in Louisville.

One of the latest Kentucky Colonels is Lt. Col. John Glenn Jr., who was commissioned Feb. 20, 1962, after orbiting the world.

Picture taking is more fun than ever... but it's only half the fun!

Minnesota's Rookie Slugger Hitting .469

**Rich Rollins Rolls
Along, Sets Pace
In Win over Angels**

By THE ASSOCIATED PRESS
There's no stopping rookie Rich Rollins, Minnesota's man-in-orbit with a sky-high .469 batting average.

The unheralded 24-year-old third baseman continued his torrid hitting Friday night, striking a two-run single in the second inning, then starting the winning rally with a leadoff single in the 10th that led to the Twins' 9-7 victory over the Los Angeles Angels.

Rollins came up to the Twins after only two seasons in organized baseball, hitting .341 at Wilson, N.C., in 1960 and batting at a .270 clip for Charlotte during the 1961 campaign. In spring training, he pushed three candidates — including Harmon Killebrew — off the third base job, winning the post with his smooth swinging. And now he's the No. 1 hero for the Twins with another solid performance that helped snap Minnesota's five-game losing streak.

Rollins is tied for the league batting lead with Chicago's Floyd Robinson, holds first place in homers with the White Sox' Jim Landis at four and is No. 2 in runs batted in with 12 while hitting safely in all nine games.

The loss kept the Angels from taking over first place in the AL from the White Sox, who lost 7-4 to Kansas City. In the only other game scheduled in either league, Baltimore edged Washington 5-4.

The Twins got off to a 6-0 lead, scoring five in the second on Rollins' single and a three-run homer by Killebrew. But they couldn't hold it as the Angels finally tied it in the seventh on a single by Steve Bilko, Lee Thomas' double and a single by Bob Rodgers.

Rollins got the Twins going again in the 10th, opening with a single and taking second on an error. Bob Allison's double brought him around and Earl Battey drove in Allison with a single. Trade acquisition Dick Stigman (1-0) picked up the victory while Art Fowler (0-1) lost it.

A home run by winning pitcher Jerry Walker (2-0) got the A's off winging in the third inning before Norm Siebern's three-run homer in the fifth chased White Sox starter Juan Pizarro (2-1). Walker left in the eighth with Danny McDevitt and Diego Segui finishing up. Segui balked a run home with the bases jammed in the ninth, then got pinch hitter Sherm Lollar to ground out and end it.

The Orioles scored the clinching runs in the eighth inning on singles by John Powell and Jim Gentile, an error and sacrifice flies by Jackie Brandt and Earl Robinson. But Hoyt Wilhelm had to come on in the ninth to preserve the victory for reliever Dick Hall (1-1), getting out of a one-out, bases-loaded situation on Chuck Hinton's tap back to the mound and a strike out of Danny O'Connell. Marty Kutyna (0-1) was the loser.

Ohio Highway Cleanup Costs Total \$540,035

COLUMBUS, Ohio (AP) — The Ohio Department of Highways reported cleanup costs for the state's roads totaled \$540,035 in 1961, compared to \$406,561 in 1960.

A 25 per cent increase in arrests for dumping litter since a new maximum fine of \$500 went into effect last September was reported by the highway patrol.

Texan Paces Pro Field in Houston Test

HOUSTON (AP)—Bobby Nichols of Midland, Tex., the 36-hole leader in the \$50,000 Houston Classic, agrees with other young golfers on the tour—it was a happy day when Arnold Palmer and Gary Player decided to pass it up.

Nichols, 24, and a pro only since 1959, had a 68-69-137 to wrest the lead from another youngster, George Knudson of Toronto, with a crucial birdie Friday.

Knudson had a two-over-par 72 for a 138 total. He led the first round with a 66.

Palmer and Player did not enter the 16th Classic and that disappointed the galleries. But it gladdened the hearts of the pros because without Palmer and Player the field is wide open.

Nichols made his bid on No. 16 with a birdie after Knudson bogied 14 and 15 to drop back to a four-way tie.

Knudson was tied with Bruce Crampton of Australia, Jay Herbert and Jack Nicklaus when the third round play started.

SELF-SERVICE — Chain store baseball apparently is still with us judging from this photo of a pitcher in the Baltimore camp in Miami getting an assist on the mound from one of those shopping carts.

Lucas Sets Pace In Cage Tourney

CHARLESTON, W. Va. (AP)—Jerry Lucas scored 31 points as he led a team of former Ohio State University stars to a 95-83 win in a semifinal game of the Sportsman's Basketball Tournament Friday night.

The team of former Buckeyes, Concrete Supply, defeated Mc Junkin Corp.

In the other semifinal, Bert Wolfe Ford downed Central Asphalt 110-100 as professionals Hal Greer and Wayne Embry scored 35 and 29 points, respectively.

Jerry West, former West Virginia star now of the Los Angeles Lakers, matched Lucas' 31 points as his team lost to Luke's, Oscar Robertson of the Cincinnati Royals was leading scorer for Central Asphalt with 32 points.

Concrete Supply and Bert Wolfe meet for the championship tonight.

The smallest fiefs ever to start in the Kentucky Derby were in 1892 and 1905 when only three thoroughbreds started.

Illinois Trips

Michigan '9'

By THE ASSOCIATED PRESS

Michigan's defending Big Ten baseball champions dropped their conference opener Friday, 1-6, when Illinois scored an unearned run in the first inning and pitcher Tom Fletcher made it stand up with a six-hit shutout.

In other conference openers, Ohio State edged Wisconsin, 1-0, in 10 innings; Indiana crushed Northwestern, 20-3, and Michigan State mauled Purdue, 11-5.

A double by outfielder Tom Perdue and catcher Nelson Miller's single broke up a brilliant pitching duel between Wisconsin's Ron Krohn and winning pitcher Joe Sparma of Ohio State. Krohn yielded five hits, Sparma six.

Tom Peckham, Michigan State high jumper and hurdler, won a Michigan regional wrestling title while at Farmington High School.

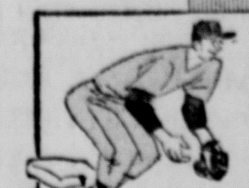

MASTERFUL PERFORMANCE — Opening a four-game set with a 300 game, Ray Bluth, St. Louis keglung star, set a new world record four-game total by rolling 1,051 in match play in the ABC Masters tourney at Des Moines, Ia. Bluth rolled 23 strikes in his first 24 shots, getting 279 his second game and then 227 and 245.

Caddy Finally Wins, Waits For 36 Years

PINEHURST, N.C. (AP)—Jimmy Steed finally has won the North and South Women's Amateur Golf Tournament.

The record books will note that Clifford Ann Creed of Alexandria, La., defeated Mrs. Helen Sigel Wilson of Gladwin, Pa. 6 and 4 in the final Friday.

But Jimmy Steed will remember the tournament as the first in which he caddied for the winner. Jimmy has been toting bags at this winter resort for 36 years, and only once before did his player even reach the finals. That was in 1945 when Mrs. John Gessler of Philadelphia, aided by Steed, reached the finals, only to lose to Mrs. Estelle Lawson Page, 5 and 4.

Jimmy is no ordinary caddy. He is Sam Snead's favorite and always works for the Slammer when he is in the state.

Clifford Ann, a double Florida circuit winner this year, shot the 14 holes played over the 6,000-yard No. 2 course of The Country Club in even par. Mrs. Wilson shot 7-over-par and couldn't match the approach shots and sharper putting of her 23-year-old rival, a physical education teacher.

HE FINISHED SECOND—Sitting in the number one slot in the starting gate, jockey James Bidwell was tossed through the air by quarter horse Now or Never before a race in Los Alamitos, Calif. Now or Never finished second.

MAKING LIKE YANKEES—A three-game sweep of the opening series with the Cubs brought on this routin' tootin' scene in Houston as three lefthanded pitchers of the Colts chalk up wins. From left are Dean Chance, a balding Bobby Shantz and Hal Woodeshick.

Minnesota's Rookie Slugger Hitting .469

Rich Rollins Rolls
Along, Sets Pace
In Win over Angels

By THE ASSOCIATED PRESS

There's no stopping rookie Rich Rollins, Minnesota's man-in-orbit with a sky-high .469 batting average.

The unheralded 24-year-old third baseman continued his torrid hitting Friday night, striking a two-run single in the second inning, then starting the winning rally with a leadoff single in the 10th that led to the Twins' 9-7 victory over the Los Angeles Angels.

Rollins came up to the Twins after only two seasons in organized baseball, hitting .341 at Wilson, N.C., in 1960 and batting at a .270 clip for Charlotte during the 1961 campaign. In spring training, he pushed three candidates—including Harmon Killebrew—off the third base job, winning the post with his smooth swinging. And now he's the No. 1 hero for the Twins with another solid performance that helped snap Minnesota's five-game losing streak.

Rollins is tied for the league batting lead with Chicago's Floyd Robinson, holds first place in homers with the White Sox' Jim Landis at four and is No. 2 in runs batted in with 12 while hitting safely in all nine games.

The loss kept the Angels from taking over first place in the AL from the White Sox, who lost 7-4 to Kansas City. In the only other game scheduled in either league, Baltimore edged Washington 5-4.

The Twins got off to a 6-0 lead, scoring five in the second on Rollins' single and a three-run homer by Killebrew. But they couldn't hold it as the Angels finally tied it in the seventh on a single by Steve Bilko, Lee Thomas' double and a single by Bob Rodgers.

Rollins got the Twins going again in the 10th, opening with a single and taking second on an error. Bob Allison's double brought him around and Earl Battey drove in Allison with a single. Trade acquisition Dick Stigman (1-0) picked up the victory while Art Fowler (0-1) lost it.

A home run by winning pitcher Jerry Walker (2-0) got the A's off winging in the third inning before Norm Siebern's three-run homer in the fifth chased White Sox starter Juan Pizarro (2-1). Walker left in the eighth with Danny McDevitt and Diego Segui finishing up. Segui balked a run home with the bases jammed in the ninth, then got pinch hitter Sherm Lollar to ground out and end it.

The Orioles scored the clinching runs in the eighth inning on singles by John Powell and Jim Gentile, an error and sacrifice flies by Jackie Brandt and Earl Robinson. But Hoyt Wilhelm had to come on in the ninth to preserve the victory for reliever Dick Hall (1-1), getting out of a one-out, bases-loaded situation on Chuck Hinton's tap back to the mound and a strike out of Danny O'Connell. Marty Kutyna (0-1) was the loser.

Pirate Hopes Kindled Anew

Pittsburgh Chalks Up 8th Straight Victory

NEW YORK (AP)—The Pittsburgh Pirates have made their best start ever in the National League with eight straight victories.

Their fans probably have their fingers crossed, hoping that the end of the season won't duplicate the dismal finish of the 1958 Pirates who set the previous off-the-mark record of seven in a row.

The 1958 Pirates seemed to have the pennant all wrapped up until they invaded Chicago for a three-game series with the second place Cubs, Sept. 27-28-29. They lost all three games with Gabby Hartnett's famed homer in the gathering darkness winning the second game and dropping the Bucs to second.

The Bucs never recovered, although most fans forget that they actually weren't eliminated until they lost three of four to Cincinnati in their last series of the season after leaving Chicago.

The Pirates can take hope from the fate of other record streakers at the start in both leagues.

The 1955 Brooklyn Dodgers set the modern National League mark with 10 and went on to the pennant, and the only World Series victory ever won in Brooklyn.

The 1944 St. Louis Browns got off to a nine-straight start and won the only American flag ever to fly in St. Louis. They dropped the series to the Cardinals.

Spanish War Buddies Meet In Hospital

HUNTINGTON, W. Va. (AP)—At 85 Robert Waddell of Franklin Furnace, Ohio, doesn't appear much different than he did at 27.

"I'd never forget that nose anywhere," commented Robert L. Arnett of Sayersville, Ky., who recognized his Army buddy of the Spanish-American War.

The meeting between Arnett, 83, and Waddell took place Friday at the Huntington Veterans Administration Hospital where both are patients.

The two served with the 110th Company of the Coast Artillery. They had not seen each other since Sept. 20, 1904 at Fort Adams, R. I.

Told that a War of '98 soldier was at the hospital, Arnett, who was admitted March 22, said he would go see him. "I recognized him as soon as I went in," Arnett said.

The two old soldiers said they had trouble recalling experiences of 58 years ago.

But Arnett said, with his arm around Waddell's shoulder, "I do remember he was a good poker player."

Columbus Set To Host Civil War Assembly

COLUMBUS, Ohio (AP)—Columbus will take the spotlight in the current Civil War centennial celebrations, May 4-5 when the 8th National Assembly of the Civil War Centennial is held here.

Dr. Allan Nevins, chairman of the national commission, will deliver the keynote address. There also will be four panels, composed of some of the nation's leading authorities.

A concert of Civil War music will be presented by the Ohio State University Military band on the Statehouse lawn on May 5.

A ceremony also will be held that day to honor the Andrews Raiders, band of Ohio volunteers who made an unsuccessful attempt to disrupt railway communications in the South by stealing a locomotive and destroying trackage in Georgia and Tennessee. The locomotive, "The General," will be on display here.

Brown Is Favored To Retain Crown

LAS VEGAS, Nev. (AP)—World lightweight champion Joe Brown of Houston, Tex., risks his crown for an unprecedented twelfth time tonight. The experts think he will keep it in a 15-round match with brash young Carlos Ortiz of New York.

The venerable 35-year-old title holder, who began boxing professionally in 1946 and finally won the championship almost 11 years later, figures to be an 8-5 betting favorite at ringside.

A near-capacity crowd of 7,000 is expected to sit in on the duel, plus a national television audience — ABC — starting at 10 p.m. EST.

WHOPPER — Paul Speakman, 141 Fairview Ave., caught this 8-pound 12-ounce red horse sucker in Deer Creek about three miles above Williamsport last night. The fish was 29 inches long. Speakman said that he was using night crawlers for bait. (Staff Photo)

Excess Wheat Acreage Notice Calls for June 11 Deadline

Wheat growers who have received notices of excess wheat acreage have until June 11 to dispose of the acreage in accordance with program provisions, Galen D. Mowery, chairman of the agricultural Stabilization and Conservation County Committee, has announced.

If this is not done, the excess wheat will be subject to marketing quota penalties, which, for 1962, are much larger than in former years, Mowery said.

The chairman stressed the fact that many more wheat growers will be subject to marketing quotas this year, for the former 15-acre marketing quota exemption

does not apply to the 1962 wheat crop.

Farms subject to marketing quotas under the 1962 wheat program are those on which the acreage of wheat exceeds the smaller of: (a) 13.5 acres, or (b) the highest acreage the farm had for harvest in the 3-year period 1959, 1960 and 1961.

WHERE the wheat acreage exceeds the farm wheat allotment—or the wheat quota exemption if this is larger, marketing quota penalties will apply to the excess wheat production. Farmers may avoid this penalty, however, by adjusting their wheat acreage to the allotment (or the exemption, if larger) by the stipulated deadline, or by storing or delivering the excess to the Secretary of Agriculture in accordance with regulations.

Mowery points out that the penalty on excess 1962-crop wheat will be 65 per cent of parity as of May 1. Formerly, it was 45 per cent.

The amount of wheat subject to penalty will be twice the farm's normal yield on all the excess acres. However, this amount may be reduced if the proved 1962 actual yield is less and a request is filed by a stated deadline.

Price support on the 1962 wheat crop will be available only to wheat growers who participate in this year's wheat stabilization program.

Christians . . .

(Continued from Page 1) position in some places. But that is part of the story. "Let not your heart be troubled . . . because I live ye shall live also."

Orthodox and Baptist churches in Moscow scheduled special services tonight and Sunday, as did churches elsewhere in Communist countries.

Rome, where 80-year-old Pope John XIII led the observances, swarmed with an estimated 150,000 visitors. The city's 500 church bells were silent today, but ring out tonight at midnight masses commemorating the blessed event.

Other throngs — an estimated 6,000 pilgrims — crowded the walled city of Jerusalem, and threaded the candlelit passages of the Church of the Holy Sepulchre, the traditional site of Christ's burial and resurrection. President Kennedy was in Palm Beach, Fla., with his family to the Eastern weekend.

Across the nation, churches scheduled late-night watch services, awaiting the Easter dawn. Thousands of persons flocked to open-air beauty spots for big interdenominational celebrations.

Sunrise services or pageants were scheduled at many places.

Hijackers Nabbed After Cuban Trip

MIAMI, Fla. (AP) — Five men kicked out of Cuba Friday after a week of questioning were arrested by the FBI upon their return on charges of stealing transportation for their trips.

The FBI said two of the men, Leonard Malcolm Oeth, 28, of Orlando and David Thomas Healy, 22, of Coral Gables, were charged with kidnapping pilot Woodruff Mead, 23, and forcing him to fly them in his plane to Cuba April 13.

The other three, William Thomas, 22, Richard Cobb, 30, and Clarence Lee Jones, 25, all of Key West, were charged with stealing the 58-foot shrimp trawler Teresa and Julia from Key West and sailing her to Cuba April 14.

The FBI did not give a reason for the two trips to Cuba nor say whether they were related. Neither the trawler nor the plane was returned to the United States.

Mead, interviewed after returning on the same plane with the five, said Oeth and Healy told their Cuban captors they wanted political asylum.

Mead said Oeth and Healy, who identified themselves to him as James Anderson Eastham and Harold Moore, had asked for a demonstration flight over Miami Beach so they could photograph the hotels and beaches.

Instead, he said, one drew a pistol and forced him to fly them to Cuba.

"I was at 3,000 feet over Crandon Park (a recreation area at the ocean front) and Eastham, sitting beside me, was trying out the controls. A couple minutes later, he asked me what those islands south of us were. He said, 'I'd like to see what's down there.'"

"Just then, I felt a pistol in the back of my neck. They told me to head south along the coast line to Seven-Mile Bridge (in the Florida Keys)."

"Then they told me to turn off shore and follow a heading of 210 degrees to Cuba."

"When they pulled the gun on me, Moore reached over and shut off the radio. There was no way for me to tell anyone what was going on."

"I hit Cuba about 30 miles east of Havana and followed a highway toward town, looking for a place to land. Finally, I saw a field. I didn't know it would turn out to be a military training field. On my final approach I saw machine guns pointed right at me. I was scared."

"We landed and I turned off the engine. It was a few minutes before a guard arrived and took us to headquarters in a truck. Then they questioned us for about two hours each. I guess we were there 12 or 14 hours."

"Moore and Eastham told the Cubans they had forced me to fly to Havana. The Cubans asked me if I worked for the FBI, CIA, Immigration and so on. They asked me if I liked 'socialism' — they didn't say communism."

"They told me the penalty for violating Cuban air space was five years in jail. I was still scared."

"Finally, they took us into town to G2 headquarters. They left us there—it must have been five days

—in one room with a TV set. We had milk and a hard roll for breakfast. For lunch, we had fried bananas, fried rice, or bean soup and coffee. For supper, I got fried bananas again."

"I was questioned during this period by interpreters who didn't speak very good English. Finally, toward the end, I was told they believed I was telling the truth. They said I would probably get to go back to the United States."

"Yesterday, they took us to Principe Prison for five hours. That place is unbelievable. Men are living on hard stone floors. The blankets are filthy. I was scared to death."

"Finally, Thursday night, they took us from Principe to deportation headquarters and told us we were leaving in the morning. I was never given a chance to call the United States. I didn't know whether people were looking for me or if I had just been forgotten."

"Friday morning armed guards took us to the plane."

"They were pretty nervous on the way home. They didn't talk much."

"The Cubans kept all my identification papers. Also, while I was there, I asked if I would be able to fly my plane back, but I never got an answer."

Mr. DeLong was born Feb. 26, 1888, in Washington Twp., the son of George and Malinda Stout DeLong.

He was a retired Pennsylvania Railroad bridge carpenter.

He was married three times, first to Edna Martin DeLong, deceased; second to Nellie Hedrick DeLong, deceased, and third to Mabel Eynon DeLong, who survives.

He is also survived by two daughters, Miss Malinda DeLong and Mrs. Ruth Miranda, of the residence; one son, Omer DeLong, Route 1, Laurelvile, and two grandsons.

Funeral services will be 2:30 p. m. Monday in the Stoutsville Lutheran Church with the Rev. Ronald Brant officiating. Burial will be in Maple Hill Cemetery. Friends may call at the funeral home beginning 6 p. m. today.

Students Present Program at Home

A group of students from Ohio University, Athens, presented an Easter party at the Pickaway County Children's Home this week.

The students brought filled Easter baskets and other useful gifts for each child. An entertainment program lasting about 1½ hours was a highlight.

The party was sponsored by students from Johnson Hall, a girls dormitory on the Ohio University Campus.

Columbus Woman Held in Slaying

COLUMBUS, Ohio (AP)—A 34-year-old mother of four is being held in Franklin County jail during investigation of homicide in the shotgun-slaying of her husband Friday.

Earl Hall, 39, was killed by a blast in the chest from a 12-gauge shotgun in the living room of the couple's home west of here. Deputies said they were told Hall, who apparently had been drinking, came home, hit his wife, Flora, threatened to kill their 18-month-old son and then kicked his wife. The woman allegedly got the shotgun and fired at close range, officers said.

The two sections—one 34 feet long and the other 18—were ripped up and hauled away at night with hours after the roads had been resurfaced.

Woman's Driving Test Ends Disastrously

HAMILTON, Ohio (AP) — A driving test for Mrs. Judith Specht of Trenton didn't turn out too well either for her or Highway Patrol examiner Dan Shay Jr.

Shay said Mrs. Specht, 53, started a turn in Hamilton Friday but left the road and hit two trees, demolishing the car.

Shay, 45, was taken to Mercy Hospital for treatment of neck and back injuries.

Mrs. Specht guessed she flunked the test.

Several years' experimentation on St. Croix, largest of the Virgin Islands, demonstrated that avocados are well adapted to the islands. Six trees are being offered to each resident free of charge.

U2 Pilot's Wife Treated In Hospital

WASHINGTON (AP)—Barbara Powers, wife of U2 pilot Francis Gary Powers, has regained consciousness, but officials at Georgetown University Hospital said today they still didn't know what caused her illness.

Mrs. Powers was admitted to the hospital suffering from what police described as an overdose of sleeping tablets.

A hospital spokesman said she regained consciousness about 10 o'clock Friday night and was responding well. "Her general condition is satisfactory," the spokesman said. "As yet there has been no diagnosis. She is still being studied to determine the cause of her illness."

Powers, who spent 18 months in a Soviet prison after being convicted of spying on an aerial flight over Russia in May 1960, called an ambulance to the couple's suburban Alexandria, Va., apartment early Friday morning.

Mrs. Powers was taken to the Alexandria Hospital, where she was treated and then transferred to Georgetown University Hospital. Her condition at the time was described as very serious.

Dr. G. E. Schreiner, her attending physician, said the 27-year-old brunette was being treated for acute gastritis because "medication was available (but) we don't know if she took them."

Highway Thieves Steal Highway

SOUTH BEND, Ind. (AP) — Frank Odusek, St. Joseph County highway superintendent, has alerted police to be on the lookout for highway thieves.

But these aren't the kind who rob travelers — they're snatching the road itself.

The robbers have taken two freshly blacktopped sections of County Line Road in northwestern St. Joseph County.

"I wouldn't have believed it if I hadn't seen it with my own eyes," Odusek said. "They apparently scooped up the road and hauled it away in trucks. You could actually see the shovel marks."

The two sections—one 34 feet long and the other 18—were ripped up and hauled away at night with hours after the roads had been resurfaced.

Woman's Driving Test Ends Disastrously

HAMILTON, Ohio (AP) — A driving test for Mrs. Judith Specht of Trenton didn't turn out too well either for her or Highway Patrol examiner Dan Shay Jr.

Shay said Mrs. Specht, 53, started a turn in Hamilton Friday but left the road and hit two trees, demolishing the car.

Shay, 45, was taken to Mercy Hospital for treatment of neck and back injuries.

Mrs. Specht guessed she flunked the test.

Business Briefs

The Ed Wallace Realty Co. has moved to its new location at 127½ E. Main St.

The real estate firm previously was located at 110½ N. Court St. The former offices will be included in the First National Bank's plans for building and expansion.

The new Wallace offices, located above Fitzpatrick's Printery, will continue to serve as headquarters for the Circleville Area Chamber of Commerce. The phone number of Mrs. E. R. Bennett, Chamber secretary, remains the same — GR 4-4923.

Ralph Boyer and Daryl Thompson of the Boyer Hardware, S. Court St., attended the Spring Sales Clinic sponsored by The Ohio Hardware Assn. this week in Columbus.

The Spring Sales Clinic included three one-day short courses. The seven classes each day were presented by representatives from American Floor Machine Co., O. Ames Co., Black & Decker Manufacturing Co., Reynolds Sales Co., Shelby Spring Hinge Co., Sherwin-Williams Co., and Vaughan's Seed Co.

All classes were held at The Ohio Hardware Industry Building in Columbus. The purpose of the Sales Clinic was to better inform hardware sales personnel on merchandise they sell every day to the consumer public.

Area Wool Growers Receive Honors

Several area wool growers have been honored by the Ohio Wool Growers Assn., according to Joseph C. Peters, Route 1, Ashville, district director.

Presented clip citations for wools marketed in the January-March Pool of the association were Frank Peters, Lockbourne; Moody Brothers, Route 1, Groveport; Palmer and Brobst and Eugene Wilson, Groveport.

Premium clip is a designation given only to top quality clips by the licensed graders working in the warehouse of the Ohio Wool growers in Columbus.

Dr. Smith Re-Elected To Indemnity Board

Dr. Robert G. Smith, 918 Circle Drive, was re-elected to the board of directors of Ohio Medical Indemnity, Inc., Wednesday at the 17th annual board of directors meeting in Columbus.

The Ohio Blue Cross and Blue Shield hospitalization and surgical insurance plans are offered by this corporation.

A Story of The Christ. The Glory of His Spoken Words.

Come In Anytime...See a Complete Showing

WHOPPER — Paul Speakman, 141 Fairview Ave., caught this 8-pound 12-ounce red horse sucker in Deercreek about three miles above Williamsport last night. The fish was 29 inches long. Speakman said that he was using night crawlers for bait. (Staff Photo)

Excess Wheat Acreage Notice Calls for June 11 Deadline

Wheat growers who have received notices of excess wheat acreage have until June 11 to dispose of the acreage in accordance with program provisions, Galen D. Mowery, chairman of the agricultural Stabilization and Conservation County Committee, has announced.

If this is not done, the excess wheat will be subject to marketing quota penalties, which, for 1962, are much larger than in former years, Mowery said.

The chairman stressed the fact that many more wheat growers will be subject to marketing quotas this year, for the former 15-acre marketing quota exemption

does not apply to the 1962 wheat crop.

Farms subject to marketing quotas under the 1962 wheat program are those on which the acreage of wheat exceeds the smaller of: (a) 13.5 acres, or (b) the highest acreage the farm had for harvest in the 3-year period 1959, 1960 and 1961.

WHERE the wheat acreage exceeds the farm wheat allotment—or the wheat quota exemption if this is larger, marketing quota penalties will apply to the excess wheat production. Farmers may avoid this penalty, however, by adjusting their wheat acreage to the allotment (or the exemption, if larger) by the stipulated deadline, or by storing or delivering the excess to the Secretary of Agriculture in accordance with regulations.

Mowery points out that the penalty on excess 1962-crop wheat will be 65 percent of parity as of May 1. Formerly, it was 45 percent.

The amount of wheat subject to penalty will be twice the farm's normal yield on all the excess acres. However, this amount may be reduced if the proved 1962 actual yield is less and a request is filed by a stated deadline.

Price support on the 1962 wheat crop will be available only to wheat growers who participate in this year's wheat stabilization program.

Christians . . .

(Continued from Page 1)
position in some places. But that is part of the story. "Let not your heart be troubled . . . because I live ye shall live also."

Orthodox and Baptist churches in Moscow scheduled special services tonight and Sunday, as did churches elsewhere in Communist countries.

Rome, where 80-year-old Pope John XIII led the observances, swarmed with an estimated 150,000 visitors. The city's 500 church bells were silent today, but rang out tonight at midnight masses commemorating the blessed event.

Other throngs — an estimated 6,000 pilgrims — crowded the walled city of Jerusalem, and threaded the candlelit passage ways of the Church of the Holy Sepulchre, the traditional site of Christ's burial and resurrection. President Kennedy was in Palm Beach, Fla., with his family for the Eastern weekend.

Across the nation, churches scheduled late-night watch services, awaiting the Easter dawn. Thousands of persons flocked to open-air beauty spots for big interdenominational celebrations. Sunrise services or pageants were scheduled at many places.

Hijackers Nabbed After Cuban Trip

MIAMI, Fla. (AP) — Five men kicked out of Cuba Friday after a week of questioning were arrested by the FBI upon their return on charges of stealing transportation for their trips.

The FBI said two of the men, Leonard Malcolm Oeth, 28, of Orlando and David Thomas Healy, 22, of Coral Gables, were charged with kidnapping pilot Woodruff Mead, 23, and forcing him to fly them in his plane to Cuba April 13.

The other three, William Thomas, 22, Richard Cobb, 30, and Clarence Lee Jones, 25, all of Key West, were charged with stealing the 58-foot shrimp trawler Teresa and Julia from Key West and sailing her to Cuba April 14.

The FBI did not give a reason for the two trips to Cuba nor say whether they were related. Neither the trawler nor the plane was returned to the United States.

Mead, interviewed after returning on the same plane with the five, said Oeth and Healy told their Cuban captors they wanted political asylum.

Mead said Oeth and Healy, who identified themselves to him as James Anderson Eastham and Harold Moore, had asked for a demonstration flight over Miami Beach so they could photograph the hotels and beaches.

Instead, he said, one drew a pistol and forced him to fly them to Cuba.

"I was at 3,000 feet over Crandon Park (a recreation area at the ocean front) and Eastham, sitting beside me, was trying out the controls. A couple minutes later, he asked me what those islands south of us were. He said, 'I'd like to see what's down there.' 'Just then, I felt a pistol in the back of my neck. They told me to head south along the coast line to Seven-Mile Bridge (in the Florida Keys)."

"Then they told me to turn off shore and follow a heading of 210 degrees to Cuba."

"When they pulled the gun on me, Moore reached over and shut off the radio. There was no way for me to tell anyone what was going on."

"I hit Cuba about 30 miles east of Havana and followed a highway toward town, looking for a place to land. Finally, I saw a field. I didn't know it would turn out to be a military training field. On my final approach I saw machine guns pointed right at me. I was scared."

"We landed and I turned off the engine. It was a few minutes before a guard arrived and took us to headquarters in a truck. Ten they questioned us for about two hours each. I guess we were there 12 or 14 hours."

"Moore and Eastham told the Cubans they had forced me to fly to Havana. The Cubans asked me if I worked for the FBI, CIA, Immigration and so on. They asked me if I liked 'socialism' — they didn't say communism."

"They told me the penalty for violating Cuban air space was five years in jail. I was still scared."

"Finally, they took us into town to G2 headquarters. They left us there—it must have been five days

—in one room with a TV set. We had milk and a hard roll for breakfast. For lunch, we had fried bananas, fried rice, or bean soup and coffee. For supper, I got fried bananas again.

"I was questioned during this period by interpreters who didn't speak very good English. Finally, toward the end, I was told they believed I was telling the truth. They said I would probably get to go back to the United States."

"Yesterday, they took us to Principe Prison for five hours. That place is unbelievable. Men are living on hard stone floors. The blankets are filthy. I was scared to death."

"Finally, Thursday night, they took us from Principe to deportation headquarters and told us we were leaving in the morning. I was never given a chance to call the United States. I didn't know whether people were looking for me or if I had just been forgotten."

"Friday morning armed guards took us to the plane."

"They were pretty nervous on the way home. They didn't talk much."

"The Cub kept all my identification papers. Also, while I was there, I asked if I would be able to fly my plane back, but I never got an answer."

Deaths

MR. GEORGE E. DeLONG
Mr. George E. DeLong, 74, Route 1, Stoutsville, died in his residence at 6:15 p. m. yesterday.

Mr. DeLong was born Feb. 26, 1888, in Washington Twp., the son of George and Malinda Stout DeLong.

He was a retired Pennsylvania Railroad bridge carpenter.

He was married three times, first to Edna Martin DeLong, deceased; second to Nellie Hedrick DeLong, deceased, and third to Mabel Eynon DeLong, who survives.

He is also survived by two daughters, Miss Malinda DeLong and Mrs. Ruth Miranda, of the residence; one son, Omer DeLong, Route 1, Laurelvile, and two grandsons.

Funeral Services will be 2:30 p. m. Monday in the Stoutsville Lutheran Church with the Rev. Ronald Brant officiating. Burial will be in Maple Hill Cemetery.

Friends may call at the funeral home beginning 6 p. m. today.

Students Present Program at Home

A group of students from Ohio University, Athens, presented an Easter party at the Pickaway County Children's Home this week.

The students brought filled Easter baskets and other useful gifts for each child. An entertainment program lasting about 1½ hours was a highlight.

The party was sponsored by students from Johnson Hall, a girls dormitory on the Ohio University Campus.

Columbus Woman Held in Slaying

COLUMBUS, Ohio (AP)—A 34-year-old mother of four is being held in Franklin County jail during investigation of homicide in the shotgun-slaying of her husband Friday.

Earl Hall, 39, was killed by a blast in the chest from a 12-gauge shotgun in the living room of the couple's home west of here.

Deputies said they were told Hall, who apparently had been drinking, came home, hit his wife, Flora, threatened to kill their 18-month-old son and then kicked his wife. The woman allegedly got the shotgun and fired at close range, officers said.

Route 62 Bids Due

E. S. Preston, state highway director, has announced that sealed bids for the resurfacing of 16.27 miles of Route 62 in Pickaway, Fayette and Madison counties will be received at his office in Columbus until 10:00 a. m. May 15.

The Pickaway County portion of Route 62 is in Darby Twp.

Several years' experimentation on St. Croix, largest of the Virgin Islands, demonstrated that avocados are well adapted to the islands. Six trees are being offered to each resident free of charge.

U2 Pilot's Wife Treated In Hospital

WASHINGTON (AP)—Barbara Powers, wife of U2 pilot Francis Gary Powers, has regained consciousness, but officials at Georgetown University Hospital said today they still didn't know what caused her illness.

Mrs. Powers was admitted to the hospital suffering from what police described as an overdose of sleeping tablets.

A hospital spokesman said she regained consciousness about 10 o'clock Friday night and was responding well. "Her general condition is satisfactory," the spokesman said. "As yet there has been no diagnosis. She is still being studied to determine the cause of her illness."

Powers, who spent 18 months in a Soviet prison after being convicted of spying on an aerial flight over Russia in May 1960, called an ambulance to the couple's suburban Alexandria, Va., apartment early Friday morning.

Mrs. Powers was taken to the Alexandria Hospital, where she was treated and then transferred to Georgetown University Hospital. Her condition at the time was described as very serious.

Dr. G. E. Schreiner, her attending physician, said the 27-year-old brunette was being treated for acute gastritis because "medication was available (but) we don't know if she took them."
